

# PEUGEOT RIFTER

PRICES, EQUIPMENT AND TECHNICAL SPECIFICATIONS

Version 14 - October 2020

Model Year - 2020.5

PEUGEOT

Model shown is PEUGEOT Rifter GT Line with optional Sunset Copper paint

**PEUGEOT Rifter models come with the following equipment as standard:**

**Body Style**

- Standard (5 seats)
- Long (7 seats)

**Safety and Security**

- ABS (Anti-lock Braking System) with EBD (Electronic Braking Distribution) and EBA (Emergency Braking Assistance)
- Airbags: Adaptive driver and front passenger airbags (includes passenger airbag deactivation function)
- Airbags: Driver and front passenger side airbag
- Airbags: Front and rear curtain airbags
- Automatic door locking when moving off
- Automatic hazard light activation upon heavy brake application
- Child locking functionality on rear doors
- Deadlocking
- Electronic code immobiliser
- ESP (Electronic Stability Program) with Hill start assist
- Safety Pack: Lane Keeping Assist, Speed limit recognition and recommendation and Active Safety Brake
- Front optimised safety headrests and rear retractable headrests (x3)
- Front three-point retractable seatbelts, with force limiters
- Front and rear disc brakes
- Gear Shift Indicator
- Headlights left on audible warning
- Isofix child seat fittings (x3) in the second row
- Programmable cruise control and speed limiter
- Seatbelt unfastened on the move audible and visual alert for front and rear seats
- Steel spare wheel
- Tyre pressure sensors

**Comfort and Convenience**

- Electric and heated door mirrors
- Electric power steering with reach- and rake-adjustable steering column
- Front interior light with reading spotlights (x2) and rear interior light with timer
- Front windscreen wiper with multi-speed setting
- Heated rear windscreen & wiper blade
- Multifunction trip computer
- Electric front windows
- PEUGEOT i-Cockpit®: compact steering wheel
- PEUGEOT i-Cockpit®: Head-up instrument panel
- Rear windscreen wiper triggered automatically in reverse gear
- Remote central locking (two remotes)
- Fixing rings (x4), in load area

**Interior Features**

- Leather Steering wheel
- Seating: 2 independent and removable sliding 3 row seat (Long versions only)
- 2 heights parcel shelf (Standard versions only)
- Retractable parcel shelf (Long versions only)
- Upper glove compartment
- Full width front overhead storage shelf
- Driver and Passenger dashboard mounted cup holders

**In Car Entertainment**

- Bluetooth® telephone facility
- DAB Radio (Digital Audio Broadcasting)
- USB socket
- 6-Speaker radio, MP3 compatible

**Exterior Features**

- Contrasting wheel arch trim
- Body-colour exterior door handles
- Two sliding side doors

**Exterior Lighting and Visibility**

- Rear LED PEUGEOT signature 'Claw Effect' lights
- Front fog lights
- Visibility pack: automatic lights
- Visibility pack: automatic MagicWash® windscreen wipers
- Visibility pack: electrochrome rear view mirror (auto dimming)
- Visibility pack: 'follow me home headlights'

Model shown is PEUGEOT Rifter GT Line with optional Sunset Copper paint

**ACTIVE** With the perfect balance of character and strength, Active is the perfect place to start your journey

**ALLURE** With added style and specification, enjoy the ultimate in understated luxury

**Comfort and Convenience**

- Air conditioning (manual)

**Interior Features**

- Adamantium interior ambience
- Seating trim: 'Enigmatic' cloth seat trim with overstretch detail
- Seating: Height adjustable driver seat
- Seating: -1/3 - 2/3 folding rear seat (2 row)
- Pop-out opening rear side windows

**Exterior Features**

- Radiator grille: 3D stamped effect and chrome surround
- Body-colour door mirrors
- Black front bumper with coloured inserts
- 16" Steel Wheel with 'Rakiura' wheel trim
- Door sill protectors

**Active specification +**

**Comfort and Convenience**

- Air-vents in 2nd row with USB socket
- Electric parking brake
- Electric rear windows
- Parking sensors - rear

**Interior Features**

- Picasso blue interior ambience
- Seating trim: 'Puma' cloth seat trim with blue overstretch detail
- Seating: Height adjustable driver seat with adjustable lumbar support, under-seat storage and elbow rest
- Seating: Foldable passenger seat with under-seat storage and elbow rest
- Seating: Tray tables at the back of the front seats
- High console between front seats with storage compartment

**In Car Entertainment**

- PEUGEOT i-Cockpit®: 8.0" capacitive touchscreen
- Mirror Screen®: (Apple CarPlay™ and Android Auto)
- USB socket at the back
- Voice recognition (radio, navigation and telephony) linked to Mirror Screen® features

**Exterior Features**

- 16" 'Taranaki' Alloy Wheel
- Body coloured front bumper
- Aluminium roof bars

**Exterior Lighting and Visibility**

- Halogen headlights
- LED daytime running lights built into the headlight unit

**GT LINE** The best of all worlds, sports styling combined with outstanding levels of efficiency and specification.

**Allure specification +**

**Comfort and Convenience**

- Automatic dual zone climate control
- Air-vents in 2nd row with fan strength command and USB Socket
- PEUGEOT Open and Go (keyless entry and push button start)
- Power folding door mirrors
- Dark tinted rear side and tailgate windows
- Opening tailgate window

**In Car Entertainment**

- Connected 3D Navigation\*:
  - Automatic connection via PEUGEOT Connect
  - TomTom® Live updates (3 year subscription)^
  - SpeedCam / Danger Zones paid subscription available at extra cost (*please refer to options page for pricing*)
- PEUGEOT Connect SOS and Assistance

**Interior Features**

- Quente Brown interior ambience
- Seating trim: 'Casual' cloth seat trim with overstitch detail
- Seating: 3 independent rear seat (2 row) with "Magic Flat" modularity\*\* with controls accessible from the boot
- Zenith Roof®: Cielo panoramic roof with electric interior blind (Standard versions only)
- Zenith Roof®: Floating translucent roof arch with background lighting and storage (Standard versions only)
- Zenith Roof®: Rear storage roof case accessible from the 2nd row and the boot (Standard versions only)

**Exterior Features**

- 17" 'Aoraki' Alloy Wheel
- Door sill protectors with gloss black inserts
- Radiator grille: 3D stamped effect and black surround
- Gloss black door mirrors
- 'GT Line' emblems (front wings and tailgate)
- Front and rear scuff plates
- Gloss Black roof bars (Aluminium on Long versions)

\*Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

\*\* available on Standard versions only

## PEUGEOT i-Cockpit®

### PEUGEOT i-Cockpit®:

Since launching in 2012, PEUGEOT i-Cockpit® has re-written the rule book for car interior architecture. The PEUGEOT i-Cockpit® philosophy centres around a driving environment that puts you in control, allowing a greater connection to the road. For PEUGEOT Rifter, the PEUGEOT i-Cockpit® helps to make driving more instinctive.

The PEUGEOT i-Cockpit®, comprises of the following key features:

#### Head-up instrument panel:

Available as standard across the PEUGEOT Rifter range, the raised instrument panel increases driver comfort and safety. As the panel is positioned higher, it is closer to the road and is more within the driver's field of vision. This can increase safety when compared to a conventional setup where the dials sit within the wheel, further from the road.

Sitting comfortably between the dials is an LCD screen complete with white graphics. Designed to relay key information to the driver the screen can display key data including, digital speed read out, satellite navigation directions and fuel economy data.

#### Compact multi-function steering wheel:

Compact dimensions coupled with a re-designed shape enhance every journey in the PEUGEOT Rifter. Out on the road the compact dimensions increase the visibility of the cars' instruments whilst in the corners it provides heightened responses and improved agility.

When it comes to round town or navigating car parks its compact size make light work of wheel winding to manoeuvre into a space. In terms of finish, all models have a steering wheel trimmed with Mistral full-grain leather and stitch detail.

#### 8.0" capacitive colour touchscreen (Allure versions upwards):

With crystal clear graphics, the 8.0" capacitive touchscreen houses several key technological features on the PEUGEOT Rifter. Capacitive technology helps to give Smartphone levels of responsiveness. In keeping with the PEUGEOT i-Cockpit® theme, the touchscreen is angled towards the driver.

For greater accessibility the touchscreen includes access keys around the outside of the screen display, these enable direct access to the wealth of functionality available.

Features accessed via the touch-screen include:

- DAB Radio (Digital Audio Broadcasting)
- Mirror Screen®: (Apple CarPlay™ and Android Auto)
- 3D satellite navigation\* (includes TomTom® Live updates)^ and PEUGEOT Connect and SOS\*

\*Depending on versions

^Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.

Head-Up Instrument Panel

Compact Multifunction Steering Wheel

8.0" Capacitive Colour Touchscreen

### Automatic Emergency Braking System (AEBS2)

**Automatic Emergency Braking System (AEBS2):**

An intelligent autonomous braking system designed to avoid a collision or limit its severity by reducing the vehicle's speed. The system is triggered if the driver does not react quickly enough, by activating the vehicle's brakes.

A multifunction camera located at the top of the windscreen coupled with a bumper mounted radar are able to detect obstructions on the road. The system is able to detect vehicles that are moving in the same direction or are at a stop, together with pedestrians in the road.

**Distance Alert System:**

Working in conjunction with the AEBS2 system, the distance alert function warns the driver if the vehicle risks a collision with the vehicle in front or a pedestrian in the road. Two levels of warning are available; the first 'Amber' warning provides a visual alert to the potential risk. In a more severe instance a 'Red' visual and audible alert indicate a collision is imminent and driver action is required, failure to act triggers the AEBS2 system.

### Trailer Sway Mitigation System (TSM)

**Trailer Sway Mitigation System:**

Optional tow bar includes Trailer Sway Mitigation System (TSM).

TSM brings in an additional ESP® function which reduces the vibrations of the trailer or, if necessary, slows the vehicle. Vibrations are reduced via individual and alternated braking manoeuvres on the front wheels. In most cases, these manoeuvres are sufficient to completely eliminate the vibrations and thereby averting all danger. Should the vibrations be very strong, then the system reduces the engine torque and applies brakes on all four wheels to reduce the speed as quickly as possible.

TSM operates at speeds between 40 and 100 mph.

TSM detects the trailer once the trailer's electric connector is hooked up to the towing vehicle.

### Driver Attention Alert

**Driver Attention Alert 3 (DAA3): (Optional)**

It is important to take frequent breaks when travelling over long distances, to better guarantee your safety and the safety of those around you. PEUGEOT Rifter features a timed alert system that operates at speeds in excess of 40mph, after two hours of driving a message is displayed recommending that you take a break.

In addition to a timed alert and controlled by a camera at the top of the windscreen designed to analyse the vehicles trajectory, DAA3 evaluates the vigilance of the driver at speeds of over 40mph.

By identifying deviations relative to the road markings PEUGEOT Rifter is able to determine whether the vehicle's behaviour reflects a certain degree of driver drowsiness or inattention. If it is felt that the driver needs to take better care on the road a visual and audible alert will occur. If more than three instances occur, the driver will be advised to take a break.

### Blind Spot Monitoring

**Blind Spot Monitoring: (Optional)**

Now you can enjoy the feeling of having eyes in the back of your head. Using lateral ultrasound sensors to cover areas out of your field of vision, an LED illuminates in either side door mirror to alert to the presence of a car, lorry, motorbike or bicycle in your blind spot. The system works when overtaking a slower vehicle or when overtaken by a faster vehicle. This intelligent feature operates from speeds as low as 8mph right up to the National Speed Limit.

### Lane Keeping Technologies

**Lane Keeping Technologies:**

PEUGEOT Rifter is always one step ahead. Featuring advanced lane keeping technology, the vehicle is able to identify lines on the road via a windscreen mounted camera. The technology operates in the following ways:

**Lane Departure Warning:** a system that monitors continuous and discontinuous lines and warns the driver if a longitudinal lane marking on the ground is accidentally crossed. If steering deviation is detected, you are alerted by a flashing indicator on the digital instrument panel and an audible signal in the cabin.

**Active Lane Keeping Assistance:** in addition to visually and audibly alerting the driver, PEUGEOT Rifter also features LKA. As soon as the system identifies a risk of accidentally crossing one of the marking lines detected on the ground, the steering is gradually corrected to

Image used for illustrative purposes only.

### PEUGEOT Connect SOS & Assistance

**PEUGEOT Connect SOS & Assistance: (Optional)**

A vehicle locating communication unit, this feature can be used manually (dedicated SOS button on the console) or automatically (if pyrotechnic devices are deployed). It locates the vehicle precisely and triggers the sending of the appropriate emergency services for a rapid response.

PEUGEOT are the pioneers of this technology, since launching in 2003 PEUGEOT Connect SOS & Assistance has assisted over 7,000 individuals. The system is subscription free with no additional charges and uses a GPS module and SIM card (built in to the system).

### Adaptive Cruise Control (ACC Stop / ACC30)

**Adaptive Cruise Control with Stop (ACC Stop): (Optional on automatic versions)**

Controlled via a radar mounted at the front of the vehicle with a range of up to 150 metres, the ACC Stop system provides two key functions:

- Automatic maintenance of the vehicles speed, at the value set by the driver.
- Automatic maintenance of a set distance between PEUGEOT Rifter and the vehicle in front, slowing the vehicle to a stop if required.

The system detects a vehicle driving in front in the same direction and can automatically adapt the vehicle's speed to that of the vehicle in front. This occurs using engine braking and the braking system (in which case the brake lights are lit) to maintain a constant distance.

If the vehicle in front has slowed to a stop, PEUGEOT Rifter will also be brought to a stop by the ACC Stop system, if after this no response is received from the driver, the electric parking brake is automatically applied.

**Adaptive Cruise Control with Speed Reduction to 20mph (ACC 30): (Optional on manual versions)**

ACC30 works in the same way as ACC Stop to regulate speed and distance. ACC30 can slow PEUGEOT Rifter to a speed of 18mph, at which point driver input is required to prevent stalling.

\*Not available on 1.5L BlueHDi 100

### Speed Limit Recognition

**Speed Limit Recognition and Recommendation: (Optional)**

Linked to the safety and safety plus option packs. Using the windscreen mounted camera, PEUGEOT Rifter features speed limit sign recognition, leaving you in no doubt over the speed limit. Upon detecting a speed limit sign this information is read by the camera and displayed in colour on the head-up instrument panel.

In addition to been made aware of the speed the driver also has the option to adapt their speed to the speed limit on the particular road via the vehicles cruise control stalk. The vehicle will then adjust its speed accordingly.

### PEUGEOT Smartbeam Assistance

**PEUGEOT Smartbeam Assistance: (Optional)**

Linked to the safety plus option packs, PEUGEOT Smartbeam Assistance gives you one less thing to think about when driving at night. Controlled via a windscreen mounted camera, the system continuously analyses driving conditions, for instance the proximity of other vehicles.

PEUGEOT Smartbeam Assistance automatically switches headlights to full beam when conditions allow, allowing you to tap into the full potential of the halogen headlights.

Image used for illustrative purposes only.

Image used for illustrative purposes only.

Image used for illustrative purposes only.

### Connected 3D Navigation\*

**Satellite Navigation:** (Standard on GT Line)

Linked to the 8.0" capacitive colour touchscreen, the system includes European mapping, 3D city mapping and voice recognition.

The system also includes a 3 year subscription\* to PEUGEOT Connect allowing a connection to online navigation services (in partnership with TomTom®). Key features of PEUGEOT Connect include:

- **TomTom® Traffic:** Real-time updates on traffic conditions (traffic jams, road works) and suggested alternative routes.
- **Local Weather:** Displays forecasted weather conditions along the route.
- **Fuel Stations:** Displays nearby fuel stations and pricing.
- **Local search:** Access address and contact detail information for a point of interest\*

\*Additional terms and conditions apply to connected services, including customer acceptance of location sharing prior to activation.  
\*Subject to subscription – after you have taken delivery of your vehicle, please subscribe on: <https://services-store.peugeot.co.uk/>

### Mirror Screen®

**Mirror Screen®:** (Standard from Allure onwards)

Allows the mirroring of a compatible smartphone screen to access the key functionality on the handset. Once paired functions are displayed on the 8.0" capacitive colour touchscreen. System features vary by provider/phone and can include navigation, text display, text reading, media functionality voice control. Mirror Screen® uses the following systems:

- **Apple CarPlay™**
- **Android Auto**

\*For further information on Apple CarPlay™ and smartphone compatibility please visit: <https://www.apple.com/ios/carplay/>  
\*For information on Android Auto and smartphone compatibility please visit: <https://www.android.com/auto/>

### CHOIX DE LA MANOEUVRE CITY PARK

Image used for illustrative purposes only.

### Visio Park 1

**180° Colour Reversing Camera:** (Optional)

A camera located on the rear of the vehicle is linked to the 8.0" capacitive colour touchscreen. Offering increased visibility when reversing, with a selection of views to choose from, you'll never look back:

- **Rear Grid View:** a clear view of obstructions to the rear of the vehicle coupled with grid lines oriented to the positioning of the steering wheel, offering perspective for distances of one and two metres respectively from the rear bumper.
- **180° View:** Divides the screen into three zones, offering a clear view of vehicles approaching from the side. Perfect for safely reversing out of parking spaces.
- **Overhead View:** the camera records the surroundings during a manoeuvre to reconstitute an overhead rear view of the vehicle in its immediate environment, making it easier to manoeuvre between surrounding obstacles

### Park Assist

**Park Assist pack:** Includes Visio park 1 (Optional)

**Park Assist:** This system provides active assistance for parking by detecting a parking space and then operating the steering system to park in this space. During a parking manoeuvre the vehicle operates the steering whilst the driver manages the pedals and gearbox control. During the entry and exit from a space the system provides visual and audible information to improve the safety of the manoeuvre. The system works with both parallel and bay parking.

### Smartphone Charging Plate

**Smartphone Charging Plate:** (Optional)

Through the use of inductive charging technology a compatible device can be charged wirelessly whilst on the move.

Operation is simple: just place your compatible smartphone on the charging area, once detected, battery charging begins.

The device must be Qi-compatible, the very latest smartphones from Blackberry, Google, HTC, LG, Microsoft, Motorola, Samsung, Apple and Sony feature this technology built in with no additional add-on required.

Other devices including iPhone 5/5c/5s, iPhone SE and iPhone 6/6 Plus/6s/6s Plus will require an additional QiInside Qi2001 accessory to access the wireless charging functionality.

For more information on this growing technology please visit the [Qi website](#)

### 'Magic Wash' System

**'Magic Wash' System:**

Mounted in the front windscreen wipers, PEUGEOT Rifter models benefit from our innovative windscreen wash system, designed to more effectively distribute water and reduce wastage. Using nozzles located above the wiper blades, fluid is distributed as the wiper sweeps the windscreen. This avoids the 'temporary blindness' of more conventional bonnet mounted systems between fluid release and wiper sweeping, improving visibility.

### PEUGEOT Open and Go (keyless entry)

**PEUGEOT Open and Go:** (Standard on GT Line)

Using sensors mounted in the front door handles, PEUGEOT Rifter can be opened without removing the key from your pocket or bag, simply grab the handle and the vehicle will automatically unlock. Once inside a simple press of the stop start button is all that is required.

## Advanced Grip Control®

**Advanced Grip Control®:** (Optional on all versions)

To allow you to take on a variety of weather and terrains, PEUGEOT Rifter can be specified with Advanced Grip Control®, a system designed to optimise traction in low-grip conditions. It adapts to the terrain by acting on the front wheels, in doing so this saves the weight normally associated with a more conventional four wheel drive system. Advanced Grip Control® offers the driver a choice of five driving modes, accessed via a rotary dial on the centre console. Designed to work in conjunction with all engines and transmissions, Advanced Grip Control® is optional across the PEUGEOT Rifter range. In addition the system also incorporates a new Hill Assist Descent Control (HADC) for the first time, this optimises vehicle control on steep slopes.

### ESP Off:

Enables the disconnecting of the dynamic stability control (ESP) and traction aids (ASR/Grip Control), up to 31mph (50 km/h) to give the driver complete autonomy. These systems are automatically reconnected above this speed for safety.

### Normal Mode:

Calibrated system with a low, fixed level of wheel spin based on a compromise between the different types of grip generally encountered in normal day to day driving.

### Snow Mode:

The system adapts to the grip conditions encountered by each wheel when starting. When advancing, the system optimises wheel spin to guarantee the best acceleration based on the available traction. Recommended in cases of deep snow and steep inclines.

### Mud Mode:

This mode authorises a lot of wheel spin at start-up for the wheel with the least grip, this removes mud and re-establishes traction. Meanwhile, the wheel with the most grip is provided with the most torque possible.

### Sand Mode:

This mode allows a small amount of simultaneous wheel spin on the two drive wheels, enabling the vehicle to advance and reduce the risk of sinking.

Image used for illustrative purposes only.

Advanced Grip Control® Rotary Dial

Advanced Grip Control® Driving Modes

**Hill Assist Descent Control (HADC):** (Optional on all versions, included with Advanced Grip Control®.)

Designed to assist with the descent of steep slopes, Hill Assist Descent Control is incorporated as part of the Advanced Grip Control® system. When descending a slope with a gradient of more than 5% and with vehicle speed below 19mph the system will work to reduce the risk of slipping. During a descent the system maintains speed and brake control, allowing the driver to concentrate on the vehicles path of travel during the manoeuvre.

A clever feature incorporated within the Hill Assist Descent Control system is our unique 'Clutch Mode' security function. Selecting this function for very steep slopes regulates the vehicle speed to 2mph (3km/h), this allows the vehicle to creep down a steep slope in a completely controlled manner.

Image used for illustrative purposes only.

Hill Assist Descent Control (HADC) System

## 8 - Speed Efficient Automatic Transmission (EAT8)

**8 - Speed Efficient Automatic Transmission (EAT8):**

Our latest gearbox innovation in partnership with Aisin, featuring 8 gears for optimum driving pleasure, EAT8 offers:

- Up to a 5% reduction in fuel consumption as a result of optimised gearing
- Hyper progressive and linear with seamless changes for conquering the open road
- Optimised safety, gearbox automatically reverts to park 'P' upon switching off vehicle ignition.
- Reduced weight, through carefully selected materials, EAT8 offers weight saving of 6kg vs. EAT6

EAT8 is also controlled via the stylish new electric impulse control, beautifully designed, the compact rotary selector perfectly complements the stylish design of the PEUGEOT i-Cockpit®.

EAT8 can also be controlled via the steering column mounted paddles.

## Electric Impulse Automatic Gearbox Control

**Electric Impulse Automatic Gearbox Control: (Standard EAT8 8-speed automatic versions)**

Linked to the 8-speed Efficient Automatic Transmission (EAT8) with Quickshift Technology. This stylish gearbox control with its ergonomic design complements the PEUGEOT i-Cockpit®. This compact gearbox control even helps to free up space within the cabin.

Operation is intuitive and smooth, for the more exuberant driver a manual driving mode is also available, a simple press of the 'M' button located on the control gives full access to the steering column mounted paddles.

## BlueHDI Diesel Engine Technology

**BlueHDI Diesel Engine Technology:**

BlueHDI is the name given to PEUGEOT's latest generation of diesel engines. The result of a world-famous diesel heritage plus innovation and engineering excellence developed on the race track of Le Mans, BlueHDI complies with Euro 6 emission standards, to deliver exceptional fuel economy and CO<sub>2</sub> emissions alongside a driving experience rich in power and performance.

This excellence that has been developed and honed has led to our latest development in diesel engine technology:

- 1.5L BlueHDI 130 S&S

The BlueHDI 130 offers a host of innovations and benefits:

- Stronger performance from a smaller engine
- Improvements in fuel consumption
- Improved practicality, with dedicated AdBlue® filler under the fuel cap.

## Standard or Long version

### Standard or Long:

Built on PEUGEOT's modular EMP2 platform, the PEUGEOT Rifter provides the fundamentals of practical, versatile design and is able to excel in any situation.

Rifter comes with a 5-seat configuration as a Standard version (4.40m) and a 7-seat configuration as a Long version (4.75m).

Rifter comes with 3 individual folding rear seats\* with Magic Flat\*\* function and the clever adaptability and modularity of this leisure activity vehicle. With the passenger seat folded\* you can fit objects up to 3m long on the Long version.

With its clever adaptability, the PEUGEOT Rifter is never short of space and loads up quickly and efficiently.

\*depending on versions

\*\*available on Standard versions only

## Intelligent storage solution

### Intelligent Storage Solutions

The Rifter's optimised architecture means that it boasts one of the most capacious offerings on the market.

According to version, the boot of the Rifter features a loading capacity of 775 litres under shelf, up to 4,000 litres under ceiling storage, and an additional enclosed space capable of storing up to 186 litres.

The PEUGEOT Rifter features numerous and ergonomic storage compartments accessible for all passengers, some of which are detailed below:

- Under-seat storage on the driver seat\*
- Upper glove compartment,
- High console between front seats with storage compartment\*
- Row 2 underfloor storage compartments\*\*
- Zenith® Roof\*

\* depending on versions

\*\* optional (linked to the Family Pack)

## Zenith® Roof

**Zenith® Roof:** Standard on GT Line, available on Standard size only

The wide, one-section panoramic glass roof, can be covered with an electric blind.

The floating, translucent arch, including storage compartments, floods the passenger compartment with light. The floating arch has a capacity of up to 14 litres and is edged with LED ambient lighting.

The Zenith Roof® has many accessible storage areas giving a total 92 litre capacity: in the roof storage compartment, in the arch and in the roof case which can be accessed from the rear seats and/or the boot.

## 'Magic Flat' rear seat release switch

### 'Magic Flat' rear seat release switch: Standard on GT Line

Three individual seats^ with independent Magic Flat® controls\* located on the boot side trims, allow you to instantly create a flat floor for easy loading. The flat floor can also be created with the 2/3-1/3 bench seat or individual seats using the control at the top of the seat back.

^depending on trim level

\* available on Standard versions only

## Opening rear tailgate window

**Opening rear tailgate window:** Standard on GT Line

For increased modularity and ease of access, the opening rear tailgate window means you can gain entry to the roof case (on M versions) or your boot. With the 2 height position parcel shelf you can load your groceries with no need to open the tailgate. The parcel shelf can support up to 25kg.

CO2 figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO2 and pricing for vehicles with optional equipment, please visit [www.peugeot.co.uk](http://www.peugeot.co.uk) and configure your chosen vehicle with your preferred options.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard.

The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. \*\*'On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

CO2 figures, P11D values, BIK% and MRRP pricing shown above are for a standard vehicle without any additional optional equipment. CO2 figures are used to calculate Vehicle Excise Duty (VED) for the first registration of the vehicle and BIK%. The addition of optional extras could increase the certified CO2 emission output. This in turn may affect the amount of VED payable upon registration, and, for company car drivers, the amount of Benefit in Kind (BIK) tax payable.

For further information on CO2 and pricing for vehicles with optional equipment, please visit [www.peugeot.co.uk](http://www.peugeot.co.uk) and configure your chosen vehicle with your preferred options.

Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard.

The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures.\*\*'On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard.

^ 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph.

^^ 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph.

^^^ 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph.

^^^ 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph.

^^^ 'COMBINED': A mixed journey average of all elements

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations

The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. Figures shown are for comparison purposes and should only be compared to the fuel consumption and CO2 values of other cars tested to the same technical standard.

^ 'LOW': Low speed city driving, representative of city centre driving, maximum 35mph.

^^ 'MEDIUM': Medium speed town driving, representative of town or suburban driving, maximum 50mph.

^^^ 'HIGH': High speed rural driving, representative of A-road or dual carriageway driving, maximum 60mph.

^^ 'EXTRA HIGH': Extra High speed motorway driving, representative of a typical European motorway, maximum 81mph.

^^^ 'COMBINED': A mixed journey average of all elements

Figures quoted reflect a range of configurations (including non-UK market vehicles) and are subject to changes resulting from ongoing product development, range evolutions, testing and evaluations.

All PEUGEOT models equipped with BlueHDi engine technology are fitted with SCR technology (Selective Catalytic Reduction) and particulate filtration to treat exhaust gases.

### How Does the Process Work?

The process specifically targets the pollutants of diesel combustion, removing hydrocarbons and carbon monoxide, reducing nitrogen oxides by up to 90% and eliminating 99.9% of particulates.

This occurs during a three stage process:

- Stage One - the oxidation catalytic converter eliminates the hydrocarbons (HC) and the carbon monoxide (CO), transforming them into water (H<sub>2</sub>O) and carbon dioxide (CO<sub>2</sub>)
- Stage Two - the SCR (Selective Catalytic Reduction) transforms the nitrogen oxides (NO<sub>x</sub>) into water (H<sub>2</sub>O) and nitrogen (N<sub>2</sub>), which is the main constituent of air (78%), due to the addition of AdBlue® (mixture of urea and water)
- Stage Three - the Particulate Emission Filter eliminates 99.9% of the particulates by number, leaving just harmless water (H<sub>2</sub>O) and nitrogen (N<sub>2</sub>) gases to be emitted from the exhaust

To allow treatment of nitrogen oxides (NO<sub>x</sub>) emissions, PEUGEOT passenger cars powered by BlueHDi engine technology are fitted with a separate AdBlue® tank to hold the solution. In most instances this tank is around 17 litres in size. AdBlue® like fuel and screenwash is treated as a consumable and must be kept regularly topped up. Various factors can affect consumption of AdBlue® including but not limited to driving style, weight carried in the vehicle and environmental factors.

PEUGEOT Model	AdBlue® Tank Size	Tank Location	Top Up Required
RIFTER	17 litres	Drivers side, under fuel filler cap	Around 3,500 miles / after 7 fuel fill-ups

### Topping Up AdBlue®

To prevent your PEUGEOT running out of the AdBlue® additive the car is fitted with a low level detection facility, just as would be the case with fuel. A series of notifications are available but where the AdBlue® range exceeds 1,500 miles (2,400 km), no information range is automatically displayed.

- Remaining range between 1,500 and 500 miles (2,400 and 800 km): When switching on the ignition, the orange warning lamp (as shown on the left) comes on for about thirty seconds, accompanied by the display of a message ("Top up AdBlue: Starting prevented in x miles/km") indicating the remaining range expressed in miles or kilometres. The reserve level has been reached; it is recommended that you top up as soon as possible
- Remaining range between 500 and 62 miles (800 and 100 km): When switching on the ignition, this warning lamp comes on, accompanied by an audible signal (1 beep) and the display of a message (e.g. "Top up AdBlue: Starting impossible in x miles") indicating the remaining range expressed in miles or kilometres. When driving, the audible signal and the message display are triggered every 62 miles (100 km) until the level is topped up. It is essential to top up as soon as possible and before the tank is completely empty; otherwise it will not be possible to restart the engine after the next stop
- Remaining range less than 62 miles (100 km): When driving, the audible signal and the message display are triggered every 6 miles (10 km) until the AdBlue tank is topped up. It is essential to top up as soon as possible and before the tank is completely empty; otherwise it will not be possible to restart the engine after the next stop.

### Important Points

- If your vehicle's AdBlue® tank is completely empty – which is confirmed by the alert messages and the impossibility of starting the engine - you must add at least 5 litres of AdBlue® solution
- Never pour AdBlue® into the Diesel fuel tank
- If any AdBlue® is splashed, or if there are any spillages on the side of the body, rinse immediately with cold water or wipe with a damp cloth
- If the fluid has crystallised, clean it off using a sponge and hot water
- Keep AdBlue® out of the reach of children, in its original container
- Never store AdBlue® containers in your vehicle
- Use only AdBlue® fluid that meets the ISO 22241 standard
- Never transfer AdBlue® to another container: it would lose its purity
- Never dilute AdBlue® with water
- Important: in the event of a top-up after an AdBlue® breakdown, you must wait about five minutes before switching on the ignition, without opening the driver's door, unlocking the vehicle or bringing the electronic key into the passenger compartment.

**EXTERNAL DIMENSIONS**

Length Standard / Long (mm)	4,403 / 4,753
Width (mm)	2,107
Height Standard / Long (mm)	1,878 / 1,882
Wheelbase Standard / Long (mm)	2,785 / 2,975
Front - rear overhang Standard / Long (mm)	892 / 726 / 892 / 886
Front / rear track width (mm)	1,553 / 1,567
Approach / departure angles (degree)	17.5 / 25.7
Ground clearance (mm)	216
Sliding side door Max. opening width (mm)	737
Sliding side door opening height	1145

**INTERNAL DIMENSIONS**

**PEUGEOT offer two levels of Service Contract:**

**PEUGEOT Service Plans**

**What's included:**

- PEUGEOT Service Plans offer complete assurance that all your servicing costs will be completely covered for the duration of the plan
- We offer PEUGEOT Service Plans for up to five years with many mileage options
- One-off up front or monthly direct debit payment options available

**Monthly price examples\*:**

<b>36 Months / 30,000 Miles</b>	<b>48 Months / 40,000 Miles</b>	<b>60 Months / 50,000 Miles</b>
12.25 per month	15.62 per month	15.43 per month

\* Price examples based on an annual mileage of 10,000 per annum

A PEUGEOT Service Plan can be purchased up to 12 months after registration date. The prices quoted above are indicative, for a bespoke quote please contact your local PEUGEOT Retailer. If the plan is taken out after the date of registration an additional payment will be required to cover this starting period. Any normal wear and tear maintenance work such as replacement of tyres, brake pads, brake discs, clutches, shock absorbers, wipers, batteries, bulbs, silencer, exhausts and windscreens are excluded. Servicing must be carried out by a PEUGEOT Authorised Repairer in the UK. PEUGEOT Motor Company reserve the right to change, amend or withdraw this product at any time.

**Extended Peugeot Assistance\***

**What's included: Extension of your PEUGEOT Assistance Cover**

- Offers you the opportunity to extend PEUGEOT Assistance up to a further two years
- Cover includes:
  - PEUGEOT Assistance from Home
  - PEUGEOT Roadside Assistance
  - PEUGEOT Recovery
  - PEUGEOT Onward Travel
  - PEUGEOT European Cover

\* Excludes non-vehicle induced faults

To find out about extending your PEUGEOT Assistance cover, call 0800 294 0294.

\*Applies to diesel vehicles that do not meet the real driving emissions step 2 (RDE2) standard

VAT is calculated at 20%

VAT is not applicable to cars sold in the Channel Islands

Cars with a list price of over £40,000 when new pay an additional £325 per year on top of the £150 annual tax 'standard rate', for five years after the end of the first licence before returning to the rates listed above. This supplement does not apply to electric vehicle.

**PEUGEOT 3 Years of Warranty**

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retailer Network in the UK.

**PEUGEOT Assistance**

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service.

PEUGEOT Assistance is available every minute of the day and night; 365 days of the year, for you and anyone else driving your PEUGEOT with your permission.

Full details are available at [www.peugeot.co.uk](http://www.peugeot.co.uk)

**Terms and Conditions**

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

It is our policy to continually improve our vehicles in every way. To avoid any misunderstandings you are advised to check with your PEUGEOT Retailer the prices, specification (including colour), equipment, accessories and equipment relating to any PEUGEOT vehicle and the exact cost and availability prior to ordering.

Where a feature is described as an option in this publication it should be assumed that it is at extra cost unless specifically stated otherwise.
