**Please note:** Print processes do not allow exact reproduction of the paint and upholstery colours. Some of the vehicles shown are European specification and may be fitted with optional equipment or accessories that are available at extra cost, or do not reflect current specification. All data and specifications are in accordance with information available at the time of going to print and are subject to change without notice. Vehicles not currently in UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory-fitted extras are not compatible and therefore all orders received are subject to confirmation. Models, factory fitted-options and paint and upholstery options are subject to availability. Please check details and availability with an authorised Volkswagen Van Centre at the time of ordering.

# The new Caravelle

# AN ICON.

## NOW IN ITS SIXTH GENERATION.

GENERATION  
**SIX**

The Caravelle has once again reinvented itself with its sixth generation. Our limited edition Caravelle Generation Six pays a clear visual tribute to its roots with a fresh, new design and a two-tone paint finish that's inspired by the iconic Volkswagen camper. Available in a classic red and white livery, the Generation Six has either a 150PS or 204PS Euro 6 engine and is equipped with BlueMotion Technology and our dual clutch direct shift gearbox (DSG) as standard. With a standard equipment list that reflects the 21st Century, you can be sure the Caravelle Generation Six will turn heads wherever it travels.

<b>Basic OTR price (exc. VAT)</b>	<b>£820.00</b>
<b>Total OTR price (inc. VAT)</b>	<b>£937.00</b>

<sup>1</sup> Fuel consumption and CO<sub>2</sub> figures are obtained under standardised EU test conditions. This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. In addition to the fuel efficiency of a vehicle, driving behaviour as well as other non-technical factors (such as environmental conditions, including weather and traffic) play a role in determining a vehicle's fuel consumption and CO<sub>2</sub> emissions. More information is available at [www.dft.gov.uk/vca](http://www.dft.gov.uk/vca). Other factors including trimline, extra equipment, options and accessories (wheels, tyres, etc.) may change vehicle parameters such as the weight, rolling resistance of the tyres and the aerodynamics and thus influence the fuel consumption, CO<sub>2</sub> emissions and driving performance values.
