

# Club Joker

# History

## Pioneer and trendsetter

*Innovation, design and quality – these three words have characterised Westfalia for more than 60 years. Thanks to these characteristics we have also become a reliable OEM partner for the automotive industry, whether it's Opel, VW, Ford or Mercedes.*

Setting standards. This has been Westfalia's guiding principle for over 60 years. In 1951 Westfalia was the first company to convert a VW Bully into a motor home.

In the following six decades Westfalia created legends in Wiedenbrück such as the James Cook, the Sven Hedin, the Club Joker, the California Exclusive, the Marco Polo and the Columbus. Although these vehicle were all quite different, they were all milestones in the development of motor homes – innovative solutions along with perfect craftsman-

ship and uncompromising quality. This made Westfalia what we are today and defined our commitment to the future.

*Six decades of history looking forward to the future.*

## Design & Atmosphere

## Setting standards!

*You could use the Club Joker every day as your main or second vehicle. The overall length is 5.29 metres, the height 2.80 metres.*

*Sure, high roof vehicles are never suitable for underground parking, but on the other hand you can stand anywhere in the vehicle, you are protected from all kinds of capricious weather and if you feel like it you can take a shower right in the middle of the city.*

The decision to convert a VW was once again a decision we at Westfalia made with our heads as well as with our hearts. Because the very first Westfalia camping bus that ever left our works was a converted Volkswagen too.

With the new Club Joker we are continuing a tradition that saw models such as the Joker, California Exclusive, Sport Joker and the T1 and T2 models roll off our production lines. And the Club Joker is again a real milestone: the basic vehicle concept will win you over on first viewing.

Because of the high roof which accommodates an almost 1.30 metre wide double bed, we have managed to achieve comfortable headroom throughout the entire vehicle. You will find the kitchen, bathroom and storage compartments in the rear area of the vehicle. The well thought-out ground plan layout makes perfect use of the long wheelbase VW T5, creating a feeling of space which once again sets standards in this class.

▼ *With their innovations Westfalia has always set standards in the camping bus market. The new Club Joker stands for the same thing.*

◀ *The details win you over.*

## Mobile comfort

*There are good reasons for our decision to make our own roof development. Our own functional roof enabled us to develop an intelligent and comfortable bed solution with sufficient free space in the vehicle without having a bed in front of or above your head all the time.*

## Go your own way!

More than 500,000 vehicles have left Westfalia's works during the past 60 years. For this reason we are not only the oldest but probably the most experienced motor home manufacturer.

This experience is why the Club Joker is such a special vehicle. You, our customers, who travel in our vehicles every day, provide the feedback we need to develop this vehicle and to ensure each model is even better than its predecessor. That is why you will, for example, only find the easily foldable seat bench with

separate sleeping and sitting areas in Westfalia vehicles or the new Flex bathroom allowing double use of the space in the rear or the aesthetic and optimised kitchen block or the Westfalia functional roof with the trendsetting bed design.

Each Westfalia model sets new standards and the new Club Joker is no exception to this rule.

▲ What applied 20 years ago still applies today. Superior appearance of the Club Joker.

◀ The Club Joker is characterised by well thought-out functionality.

## Attractive functionality

## No compromise!

People like you, people who are interested in a vehicle like the new Club Joker from Westfalia, value mobile comfort as much as well thought-out functionality.

The Club Joker will win you over on both counts. With its compact external dimensions the Club Joker is your true companion in your daily life as well as on extensive holiday trips. Wherever you decide to go, the Club Joker offers you autonomy. The hot water heating runs on diesel and the 50 l refrigerator on electricity, therefore gas is only needed for the cooker in the kitchen. So it's up to

you, where and when you want to stop. 70 l fresh and 70 l waste water tanks offer you enough reserves, and the shower in the vehicle makes you independent of campsites.

The numerous storage compartments offer you enough space to take the things on board that matter to you. Because we are not talking about compromise but about your leisure time.

► The storage compartment in the Club Joker in the roof area above the kitchen – neat storage of all your kitchen utensils.

▲ The functional interaction of storage compartments and worktops in the Club Joker will win you over.

▲ The compressor-type 50-litre refrigerator in the Club Joker.

▼► *The Flex bathroom in the Club Joker.*

▼ *The flexible room design makes the Club Joker a vehicle for 365 days a year.*

► *Well thought – out and safe to open – the locking system of the bed in the roof.*

► *The Club Joker is not only love at first sight, it keeps its promises at second sight too.*

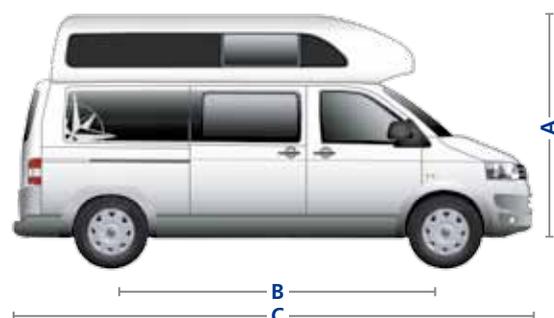

▲ *Also for the passengers: individual body-contoured seats in automotive quality.*

## Technical data

<b>Vehicle base</b>	Volkswagen T5, long wheelbase
<b>Diesel engine</b>	2.0 l TDI 62 kW / 84 HP (other engines optional)
<b>Gearbox</b>	5-speed manual transmission optional: 6-speed manual transmission & 7-speed DSG
