

## Compact Runaround

The bimobil VL 326 on the VW T5 transporter chassis is shorter, narrower and lower than most over-cab motorhomes, and hence well suited to drive around towns or narrow country roads.

4-motion AWD is available on this model which makes it capable of mastering bad roads, grass banks, sand or snow.

A large tailgate can be fitted into the rear, turning the seating group into a balcony open to the outside.

The compact kitchen is fitted with a

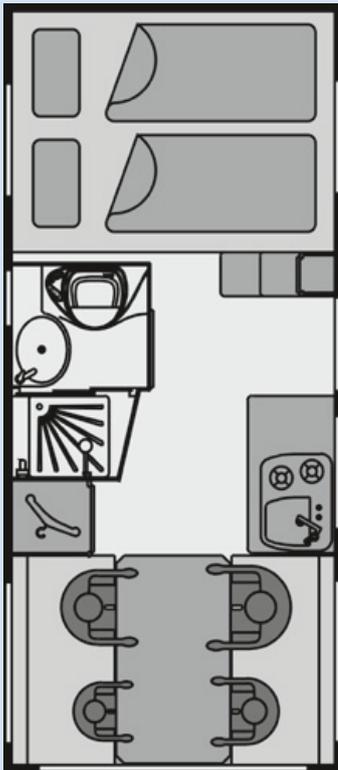

two-burner hob integrated into the sink unit, with leaves working top space above the absorber refrigerator.

The washroom is compact, but still has a separate shower compartment.

Despite the small size, the VL 326 has a generous wardrobe with hanging space, a cupboard in the kitchen, lots of overhead lockers and a useful set of shelves next to the entrance door for storage.

The bottom part of the shelve unit doubles up as steps for convenient access to the Luton.

## VL 326 on VW T5 Single Cab
