# THE NEW BMW M2 COUPÉ.

The new BMW M2 Coupé showcases a more dynamic design and delivers a driving experience that is pure adrenaline, bringing motor racing to the road the way only M knows how. The powerful M TwinPower Turbo in-line six-cylinder petrol engine, driving the rear wheels via the optional seven-speed M Double Clutch Transmission, accelerates the new BMW M2 Coupé from 0-62mph in just 4.3 seconds. The exterior design features aerodynamic bodystyling and a M rear spoiler, making the design of the new BMW M2 Coupé as jaw-dropping as its performance.

## BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO<sub>2</sub> emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every new BMW. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against the new BMW M2 Coupé at [www.bmw.co.uk/EfficientDynamics](http://www.bmw.co.uk/EfficientDynamics)

# THE NEW BMW M2 COUPÉ.

## TECHNICAL INFORMATION.

Model	Power output (hp)	0-62mph (secs)	Combined fuel consumption (mpg)	CO <sub>2</sub> emissions (g/km)
M2	370	4.5	33.2	199
M2 with optional M Double Clutch Transmission	370	(4.3)	(35.8)	(185)

## PRICING INFORMATION.

Model	Basic price (excluding VAT)	VAT 20%	Retail price (including VAT)	On the road price	P11d value	BIK tax rate (2015 / 2016)	VED band	Insurance group
M2	£35,666.67	£7,133.33	£42,800	<b>£44,070</b>	£43,525	34%	J	TBC
M2 with optional M Double Clutch Transmission	£37,870.83	£7,574.17	£45,445	<b>£46,575</b>	£46,170	32%	I	TBC

### VED rates

VED rates for brand new cars are determined by their CO<sub>2</sub> emissions figure. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The new BMW M2 Coupé models fall into one of the two categories listed below:

CO <sub>2</sub> emissions (g/km)	Band J 186 – 200	Band I 176 – 185
First year VED	£490	£350
Annual VED (second year onwards)	£265	£225

Figures in () apply to cars with MDCT (M Double Clutch Transmission)

### Prices and specifications

BMW (UK) Limited reserves the right to alter prices and specifications without notice. BMW (UK) Limited has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

### On the road price

The recommended on the road price includes:

Delivery and BMW Emergency Service	£700
Number plates	£25
Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

# OPTIONAL EQUIPMENT HIGHLIGHTS.

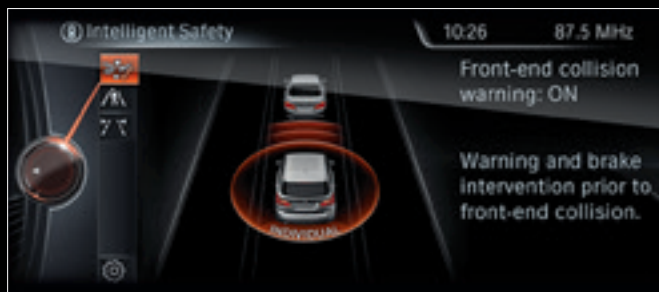

## M DOUBLE CLUTCH TRANSMISSION.

The automatic seven-speed transmission with DRIVELOGIC provides uninterrupted power delivery during gear changes and additional versatility for the driver. The fully automatic mode delivers seamless gear changes, whilst gears can also be selected manually using the gearshift paddles on the steering wheel.

- Advanced double clutch system specially designed by BMW M
- Performance is improved whilst fuel consumption and emissions are reduced
- Flexibility of automatic or manual gearshifts

See page 9

## DRIVING ASSISTANT.

A range of camera-based driver assistance systems that enhance safety and reduce the risk of potential collisions, at both high and low speeds. Some of the advanced systems included in this option are:

- Lane Departure Warning detects lane markings and alerts the driver with a vibration through the steering wheel should the vehicle unintentionally deviate from the lane of travel.
- Forward Collision Warning monitors vehicles ahead and warns the driver by an optical and acoustic alert if their approach could escalate into a rear-end collision, and activates brake pre-conditioning for maximum force.

See page 9

### ONLINE ENTERTAINMENT.

The Online Entertainment provides direct access to millions of music tracks from either Deezer or Napster without the need for a mobile or MP3 device in the vehicle.

- Cloud-based services allows for convenient access to the music library via external internet-enabled devices so music playback is not restricted to the vehicle
- Subscription redeemed with this option can be used on a limited number of devices (including the vehicle), allowing you to create a playlist at home and have this same playlist available to stream in the vehicle.

See page 11

### LOUDSPEAKER SYSTEM – HARMAN/KARDON.

The sound engineers at harman/kardon work with us from an early stage of our model development. This results in a harman/kardon Logic 7® Surround Sound system that is customised for each BMW model. The system for the new BMW M2 Coupé includes a tailored combination of mid-range speakers, tweeters and central base speakers that deliver perfect three-dimensional sound.

# BMW CONNECTED DRIVE SERVICES.

## 1. General information

BMW (UK) Limited of Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereafter referred to as “BMW”) provides the customer with vehicle-specific information and support services under the name “BMW ConnectedDrive” (hereinafter referred to as “Services”). Except where the following description of the individual Services explicitly states otherwise, BMW does not collect, store or process customer data for the Services listed here. For the provision of Services for which the collection, storage and processing of personal data is necessary, the customer shall be informed in advance in order to obtain his/her consent. Services are provided by means of a SIM card installed in the vehicle. Call and data-connection costs are included in the price of the Services. Insofar as it is necessary for the substantive organisation and utilisation of the Services BMW collects, stores and processes vehicle-related data within the legal stipulations.

## 2. BMW ConnectedDrive basic Services

The BMW ConnectedDrive basic Services “TeleServices” (6AE) and “BMW Emergency Call” (6AC) have already been activated at the point of vehicle transfer.

### a. TeleServices (6AE)

The “TeleServices” Service ensures the mobility of the customer. If required or when triggered or commissioned by the customer, the vehicle’s technical data (e.g. service information concerning wear parts, vehicle-status information such as check-control notifications, battery-charge status, data for identifying and locating the vehicle in the event of a breakdown) shall be transferred to BMW. In the event that a service is required, these items of data shall be forwarded to the responsible service partner, BMW Mobile Care or respective service providers for the purposes of making contact and arranging an appointment, where they shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties. On occasion technical data shall be transferred from the vehicle to BMW where it shall be evaluated to aid the further development of BMW products. This is known as the “Teleservice Report”. This data is exclusively technical, vehicle-related data. Other data such as positioning data shall not be transferred as part of the “Teleservice Report”. The “TeleService Battery Guard” continuously monitors the battery-charge status of the vehicle. If the battery-charge status falls below a fixed value, the responsible service partner will be informed. The responsible service partner will then contact the customer if necessary to arrange a service appointment. By registering in the BMW ConnectedDrive Customer Portal, the customer can also be informed about a critical battery status by SMS message or email, for example if the parking lights, side lights or hazards are left on.

### b. BMW Emergency Call (6AC)

The vehicle’s identification and location is required for the use of the “BMW Emergency Call”, and it is also necessary to transmit the information required to provide assistance to the respective emergency-service centre. The user’s request and the data required may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. Beyond this, no data shall be forwarded to third parties.

## 3. BMW Online Services (6AK)

The “BMW Online” (6AK) Service is automatically activated for 36 months after the car departs the factory. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The vehicle’s identification is required for the use of the Service and it shall also be necessary to process the information required to provide assistance. The data shall then be deleted. When Points of Interest queries are used, the customer request may be transmitted to service providers commissioned by BMW to provide the Service – in that case, these items of data shall only be used to help provide the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

## 4. Concierge Service (6AN)

The “Concierge Service” (6AN) is automatically activated for 36 months after the car departs the factory. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

To use the Service, the customer is connected to the BMW call centre at the push of a button using the integrated telephone unit. In this way, data concerning the vehicle’s identification, location and – if route guidance is activated – the selected route may be transmitted to the service providers commissioned by BMW to provide the Service – in that case, this data shall only be used to help process the provision of the Service and shall be retained until all procedures have been properly completed. The data shall then be deleted. Beyond this, no data shall be forwarded to third parties.

## 5. Real Time Traffic Information (6AM)

The “Real Time Traffic Information” (6AM) Service is automatically activated for 36 months after the car departs the factory. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

The traffic information required for the Service is calculated by a variety of means including using what is known as Floating Car Data. In this sense, every ConnectedDrive-capable BMW functions as a “mobile traffic reporter” (Floating Car). The individual position and sensor data of the vehicle calculated during the trip is transferred – completely anonymously – to BMW and a service provider together with up-to-date time information.

## 6. Internet (6AR)

The “Internet” (6AR) Service runs for a period of one year after the vehicle’s first registration. The customer can extend the Service for an additional charge beyond the initial free-of-charge period via the BMW ConnectedDrive Customer Portal.

## 7. Remote Services (6AP)

Use of the “Remote Services” (6AP) either upon request to BMW Customer Support or via the “My BMW Remote” smart-phone application requires registration in the BMW ConnectedDrive Customer Portal.

## 8. Availability of the Service

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom.

“BMW Emergency Call” (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, France, and the Netherlands. “TeleServices” (6AE), “Concierge Service” (6AN), “Remote Services” (6AP) and “BMW Online” (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. “Real Time Traffic Information” (6AM) is available in United Kingdom, Germany, Italy and France. The “Internet” (6AR) service is only available in United Kingdom.

## 9. Deactivation

The customer may have the BMW ConnectedDrive basic Services “TeleServices” (6AE) and “BMW Emergency Call” (6AC) deactivated at any time at an authorised BMW Retailer, a regional BMW branch or an authorised BMW workshop. Deactivation of this Service will also deactivate the SIM card installed in the vehicle. This results in the Emergency Call in the vehicle also not functioning. The other Services can also be deactivated by the customer via the BMW ConnectedDrive Customer Portal (“My BMW ConnectedDrive”).

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see:

[www.bmw.co.uk/connecteddrive-information](http://www.bmw.co.uk/connecteddrive-information)

The BMW ConnectedDrive Hotline is available on:

**+44 (0) 800 561 0555** from Monday to Sunday, 9:00 – 18:00.
