ŠKODA

ŠKODA YETI

24
WHEEL DRIVE

Effective: July 2015

Look out for these symbols as you read on. They will guide you through the 2 wheel drive features, 4x4 features, or features of both.

Welcome to the Yeti

The Yeti strikes the perfect balance between on road performance, style and family orientated practicality. Now, you can choose between the Yeti, with its subtle and elegant looks, and the Yeti Outdoor, which is robust, rugged and designed to excel off-road.

With a choice of two wheel drive or four wheel drive systems on both diesel and petrol engines, as well as flexible Varioflex rear seating, sizeable boot space and higher ride height as standard, both the Yeti and Yeti Outdoor are perfect for life in towns and cities.

But if driving off the beaten track appeals, at the mere push of the off-road button, the Yeti 4x4 turns into a highly capable off-road vehicle. It is adept at climbing slippery slopes, descending steep hills and maintaining control on difficult terrain using the very latest in 4x4 systems. The Yeti has all the benefits of a 4x4 vehicle combined with the practicality and drive of a family hatchback.

To help you navigate the way to your perfect Yeti, this brochure features 2 wheel drive Yeti and Yeti Outdoor from page 18 and 4x4 Yeti and Yeti Outdoor from page 24 onward.

Read on to learn more about the Yeti and Yeti Outdoor and their vast capabilities.

Design

The Yeti is available in two distinct styles. Each has its own 'face', designed in the spirit of ŠKODA's new design language.

The Yeti looks sporty and sleek, with its bumpers, side sills and mouldings all in body colour. In contrast, the Yeti Outdoor is visibly more rugged and ready for off-roading; its strong presence a result of its cleverly designed front and rear bumpers and black body-styling.

The Yeti is defined by its combination of striking design and uncompromising functionality. Its bold and sophisticated look, with sharp angles, clean lines, and the new ŠKODA logo, all hint at the Yeti's remarkable on and off-road capabilities.

The ŠKODA Yeti is the perfect combination of stylish design and outstanding practicality.

Striking and dynamic

EXTERIOR

- BI-XENON HEADLIGHTS
- LED TECHNOLOGY
- PANORAMIC SUNROOF
- ROOF RAILS

Bi-Xenon headlights with AFS. Bi-Xenon headlights provide 2.5 times the illumination of standard halogen lights, and the optimal illumination is further enhanced by the adaptive front light system (AFS) which adapts the light settings based on the car's speed and the weather conditions. Standard on Monte Carlo, SE L and Laurin & Klement.

LED daytime running lights. LED technology is more efficient when it comes to energy consumption and also provides higher durability. The LED strip elegantly complements the Bi-Xenon headlight design. Standard on Monte Carlo, SE L and Laurin & Klement.

LED rear lights. The rear light clusters, featuring two rear bands of light in the characteristic ŠKODA 'C' shape, can be enhanced with LED technology. Standard on Laurin & Klement.

Panoramic sunroof. Standard on Laurin & Klement and optional on SE and SE L. The electrically-operated panoramic sunroof consists of two parts: the front section tilts to provide ventilation but also slides backwards over the rear section, providing fresh air, light and a feeling of vast space.

Roof rails. Both Yeti and Yeti Outdoor come with black roof rails as standard, but these can be upgraded to silver roof rails on Yeti and part-silver roof rails on Yeti Outdoor for a more stylish look.

Door mirrors. Electrically adjustable and heated door mirrors are standard and come in body colour on Yeti and in matt silver on Yeti Outdoor. Functionality is further enhanced as electrically folding door mirrors with boarding spots are standard on SE L, and Laurin & Klement includes auto-dimming function in the driver's door mirror too.

INTERIOR

- HIGH QUALITY INTERIOR
- AIR CONDITIONING
- VARIOFLEX
- SIMPLY CLEVER FEATURES

High quality interior. The inside of the Yeti is just as striking as the outside, and can be further personalised with a choice of upholsteries and colours. Inside the Yeti there's also a vast amount of space for both passengers and luggage. The Yeti has a generous 416 litres of usable boot space, which can be increased to a massive 1,760 litres when the Varioflex system is utilised and the rear seats are removed entirely.

3 spoke leather multi-function steering wheel. Standard across the range, the sporty 3 spoke leather multi-function steering wheel feels luxurious to the touch and also allows the driver complete control over radio and telephone functions.

Air conditioning. Manual air conditioning comes as standard on S, but on SE is upgraded to dual-zone air conditioning with humidity sensor and control, perfect for maintaining the optimum interior temperature at all times.

Simply Clever features and innovative storage solutions. As ŠKODA drivers have come to expect, the Yeti is full of Simply Clever storage areas and designs to offer you solutions that fit your life.

Uncompromising comfort

24
WHEEL DRIVE

Varioflex. The Varioflex system provides the Yeti with an extremely flexible and functional array of seat positions. There are over 20 different seating combinations, the main functions are as follows:

- Outer seats can slide forwards and backwards
- All seats can be folded down individually
- Outer seats can recline by 13.5°
- All seats can be rolled up (and stowed against front seats)
- Middle seat can fold to create an additional armrest with integrated cup holder*
- Middle seat can be removed and outer seats slid towards centre, creating a two seater in the rear

*Standard on SE, SE L and Laurin & Klement.

Please note there are some key differences between the Yeti and Roomster Varioflex seats: the middle seat on Yeti is 35mm longer than that of Roomster, and when the centre seat is removed, the outer seats slide 80mm towards the centre on Yeti (Roomster slides 110mm)

TECHNOLOGY

- REAR-VIEW PARKING CAMERA
- DIRECT SHIFT GEARBOX (DSG)
- KESSY
- SMARTLINK
- NAVIGATION SYSTEMS
- RADIO & SOUND SYSTEMS
- PARK ASSIST
- SMARTGATE

Modern **technologies** not only make travelling more pleasant but increase the ease of handling the vehicle.

The latest generation of **Amundsen satellite navigation system with DAB** is standard on Laurin & Klement and available as an option on SE, Monte Carlo and SE L. It features a larger 6.5" colour display with touch-screen, and provides 2D or 2.5D (birds eye) navigation. Map data is stored on SD card, and there is also a second SD card slot which can be used for music, or alternatively music can be streamed via Bluetooth®. The system also includes voice control and both aux-in and USB sockets.

Direct Shift Gearbox (DSG), available in both 6-speed and 7-speed versions, guarantees smooth and rapid gear shifts resulting in maximum utilisation of the potential of the engine's torque.

The **recommended gear shift** function is displayed in the top right corner of Maxi DOT.

In vehicles equipped with the optional **KESSY** (Keyless Entry, Start and exit system) the driver can lock and unlock the car as well as start and stop the engine without having to insert or even handle the car key.

The **Bolero** touchscreen infotainment system, which is standard from SE, has multitude of functions, such as a 6.5" colour touchscreen display, a reader for SD or MMC data cards, memory for radio traffic reports (TIM) and aux-in and USB sockets.

The optional **rear-view parking camera**, positioned on the tailgate handle, provides a visual of what is behind the car in order to make any parking manoeuvre effortless.

SmartLink† delivers an elegant connection between car and smartphone using MirrorLink™, Apple CarPlay and Android Auto interfaces. Whether you want to select and listen to music on your smartphone or receive turn-by-turn directions via a navigation app, all of this is mirrored on the central display.

SmartGate† is a system that uses Wi-Fi connection to send selected vehicle data to a connected device. Special mobile apps are available which allow you to analyse driving data and performance to find out more about your driving style. Examples of data available include vehicle speed, engine revs and g-meter. The SmartGate applications are available free of charge from app stores.

The optional **12 speaker sound system** with a digital equaliser and 12 speakers provides excellent sound reproduction for an enhanced acoustic experience.

Maxi-DOT comes as standard across the Yeti range. Maxi-DOT, with its larger display, details fuel consumption, average speed and distance until the fuel tank is empty, and also has the ability to display phone, audio and navigation data too.

Park assist is standard on Laurin & Klement and optional on SE, Monte Carlo and SE L. Parallel parking and bay parking in the Yeti is now easier than ever thanks to the latest generation of ŠKODA's award winning Park assist.

With a press of a button, the system will begin searching for a parking space in a line of cars or obstacles. When a suitable space is found (the car's length + 60 cm is all the space needed), the car will steer itself into the space whilst the driver controls the pedals. The system will now also steer the car out of a line of cars from its parking space and with two presses of the same button, the car will search for and manoeuvre into a bay parking space.

Advanced infotainment

† For more information about SmartLink, SmartGate and phone compatibility please visit www.skoda.co.uk/yetitechnology

Smart protection

SAFETY

- AIRBAGS
- DRIVER FATIGUE SENSOR
- TYRE PRESSURE MONITOR
- ESC
- ISOFIX
- HILL-HOLD CONTROL

The Yeti features **7 airbags as standard**, located at the front, front side, curtain and driver's knee area. For additional protection rear side airbags can also be specified.

Driver fatigue sensor, available as an option across the Yeti range, monitors the movement of the driver through the steering wheel and if it detects signs of tiredness, audibly alerts the driver and shows a break recommendation alert on the Maxi-DOT display.

The two outer rear seats in all Yeti models feature **ISOFIX** as standard. The ISOFIX brackets create a fixed link between a child seat and the car's chassis, which is important for ensuring the seat is effectively secured in the event of a collision. ISOFIX can be specified on the front passenger seat too.

The standard **tyre pressure monitoring system** will highlight any loss in pressure of the tyres to the driver immediately, as a decrease in pressure could radically change the car's behaviour and drivability, potentially causing an accident.

ESC (Electronic Stability Control) is standard and delivers a number of systems designed to help maintain the car's stability in braking and emergency situations. See the technical glossary for further details.

Hill-hold control applies pressure on the braking system for a further 1 or 2 seconds after the driver releases the brake pedal (when the hill gradient is more than 5%). This allows the driver enough time to move away without rolling. Hill-hold control is standard on SE L and Laurin & Klement and optional on S, SE and Monte Carlo.

WHEEL DRIVE

Yeti and Yeti Outdoor, at home in the city

After a 4x4 Yeti? Turn to page 24

On-road

The Yeti is perfectly designed for life on the city streets. It combines the practicality of a hatchback with fantastic visibility and amazing flexibility, making it a great family car.

The Yeti's higher ride height and rugged design with seven airbags as standard is ideal for the school run. There's lots of boot space too so you can load up your shopping, sports kit, gardening equipment, the dog and pushchairs!

Flexible Varioflex seating ensures all passengers can get comfortable with over 20 different combinations. Seats can be moved forwards and backwards, reclined, rolled up individually or completely removed.

Park assist* helps reduce the stress of parking on busy streets. Press the park assist button, take your hands off the steering wheel and whilst you control the speed, Yeti will manoeuvre itself into the parking space.

The Yeti can also be an extension of your office. With Bluetooth® and multi-function steering wheel as standard, and cruise control and leather seats also available, the Yeti is a great choice as a business partner.

There are also highly efficient diesel engines available in the Yeti range with CO₂ emissions as low as 118g/km, and excellent fuel consumption. This means less impact on the environment and your pocket.

*Standard on Laurin & Klement. Optional on SE and SE L.

4x4 Yeti, at home on the trail

After a 2 wheel drive Yeti? Turn to page 18.

Off-road

For those needing a sturdy and versatile car that can handle outdoor living with ease, the 4x4 Yeti is for you. With one of the latest 4x4 systems and some very clever technology, the Yeti Outdoor handles most off road situations, slippery roads or rough ground.

Off-road button*. By pushing the off road button, the Yeti 4x4 helps maintain control when the driving conditions get tough. It will maintain a constant speed downhill on a steep slope (over 8%), maintain traction going uphill and stop over revving of the engine, hold the car still on a hill start and help prevent the wheels from spinning on loose surfaces or wet, slippery roads.

4x4 system. The latest generation 4x4 system helps you maintain control and stability at all times. The system senses what is happening on each wheel and quickly transfers power or automatically applies brakes when needed to give more grip or drive to keep you on your chosen path.

Rough road package. The optional rough road package comprises of:-

- > A thermoplastic cover for the engine and transmission
- > A plastic cover for the fuel and brake lines
- > Reinforced brake fluid distribution system and hand-brake cable

The vehicles ground clearance is not affected by the installation of this package and remains at 180mm.

* Standard on SE L and Laurin & Klement 4x4. Optional on S and SE 4x4. Not available on Monte Carlo.

The off-road button* has a set of intelligent functions to aid driving on difficult, slippery surfaces, further increasing the safety of driver and passengers. The system is enabled when the button is pressed and illuminates. The driver does not need any previous off-road experience to feel the benefits of this easy to use system.

Uphill start assist.

- > Used to assist in pulling away on wet, slippery or snowy road surfaces
- > Allows the accelerator to be fully pressed but with the RPM restricted to 2,500
- > Helps prevent damage to the clutch and engine
- > Allows driver to maintain control

Downhill assist.

- > Maintains a stable speed during descent down slippery, wet or snowy road surfaces
- > Engine is running, but is engaged in neutral, first, second, third or reverse gear
- > ESC brakes the wheels individually, preventing locking
- > In neutral the driver does not have to press accelerator or brake pedal
- > Allows the driver to concentrate fully on steering the car

ABS off-road.

- > Improves braking effect of the car
- > Longer braking creates a 'chock' of surface material, enhancing vehicle control
- > Only active up to 30mph

ASR off-road.

- > Improves acceleration on slippery surfaces
- > ASR is set to manage a higher slippage on the driving wheels
- > Helps maintain driver control and vehicle stability

EDS off-road.

- > Maintains permanent traction of the car
- > Can work diagonally across axles
- > Brakes the slipping wheel(s)
- > Helps maintain driver control and vehicle stability

The ŠKODA Yeti colour roof options

You can now select a black, white or silver roof for your Yeti or Yeti Outdoor, adding another level of personalisation to your car. Also, if you choose a black roof on the Yeti, you can opt to match your mirrors to your roof too. Coloured roofs are available on S, SE and SE L. See page 32 for prices.

Please note: The following colour combinations are not available:
 Black roof with Pacific Blue, Magnetic Brown metallic or Black Magic pearl effect.
 White roof with Candy White, Moon White metallic, Brilliant Silver metallic or Magnetic Brown metallic.
 Silver roof with Candy White, Moon White metallic, Brilliant Silver metallic or Magnetic Brown metallic.

Personalisation with ŠKODA Genuine Accessories

ŠKODA Wavo 1-2-3 child seat - This child seat is suitable for children weighing 9-36kg and features a height adjustable head support. This seat can be used in any vehicle with a 3-point seat belt. **£99.75**

Door sill covers (Alu silver)
- Not only do these sill guards protect your Yeti from scuffs whilst getting in and out of the vehicle, they also add an extra touch of style. **£107** 

Internal bike carrier - The internal bike carrier allows you to secure up to two bikes in the luggage area of your Yeti for safe and secure transportation. **£237** 

The ŠKODA Yeti **dog guard and luggage restraint** is crash tested and specifically made for the Yeti. **£185**

Protection Pack - Our protection pack will help you avoid mud splashes and debris around your car's wheels and sills, as well as in the boot and under foot. Keep your car as good as new with front and rear mudflaps, a rubber boot liner and textile floor mats. **£195** 

Stainless steel pedal kit - Stainless steel pedal covers for that sporty feeling when driving. Rubber studs provide an anti-slip surface. **£92** 

Roof bars - The roof bars fit easily and increase your carrying capacity or to add a bike carrier. **£177** 

Silver luggage net - Make the most out of the storage capacity of the Yeti with the silver netting system, which will assist in keeping things in place. Fixes to the fastening hooks and to the hanging hooks of the left and right sides of the boot lining. **£55**

These products are ŠKODA Genuine Accessories. You can also find information on the complete assortment of accessories at your authorised ŠKODA retailer.

 Price includes fitting.

Urban*	37.7 (7.5)	44.8 (6.3)	47.1 (6.0)	44.8 (6.3)
Extra urban*	50.4 (5.6)	61.4 (4.6)	61.4 (4.6)	56.5 (5.0)
Combined*	44.8 (6.3)	53.3 (5.3)	55.4 (5.1)	51.4 (5.5)
CO ₂ emissions (g/km)	147	137	134	144

□ Where law permits.

Power transmission

Clutch Hydraulically-activated single-plate dry clutch with diaphragm spring, asbestos-free coating.

Manual transmission Five-speed manual transmission, fully synchronised with direct gearshift, six speed manual transmission.

6 spd DSG transmission - two coaxial wet multiple-disc clutch, electro-hydraulically operated.

7 spd DSG transmission - two coaxial dry multiple-disc clutch, electro-hydraulically operated.

Please note: With all manual gear boxes the clutch needs to be depressed to start the engine.

Number of gears

5 speed manual 2.0 TDI 110PS

6 speed manual 1.2 TSI 110PS, 2.0 TDI 110PS, 2.0 TDI 150PS 4x4

6 speed DSG 2.0 TDI 150PS 4x4

7 speed DSG 1.2 TSI 110PS

Chassis

Front axle/rear axle McPherson suspension with lower triangular links and torsion stabilizer / multi-element axle, with one longitudinal and three transverse links, with torsion stabiliser.

Braking system Hydraulic dual-diagonal circuit braking system vacuum assisted with dual rate system.

Front / rear brakes Disc brakes with inner cooling, with single / piston floating calliper / disc brakes.

Handbrake

Mechanical handbrake operating on rear wheels.

Steering Direct rack and pinion steering with electromechanical power steering.

Turning circle (m) 10.

Tank

Fuel tank content (litres) 55 (60 for 4x4)

Fuel Unleaded petrol min. RON 95 (91) or diesel CZ 49. No biodiesel.

Body type

Five-door, two compartment, five-seat

Drag coefficient -

1.2 TSI 110PS	0.368
1.4 TSI 150PS 4x4	0.369
2.0 TDI 110PS	0.360
2.0 TDI 110PS 4x4	0.365
2.0 TDI 150PS 4x4	0.365

Official fuel consumption for the Yeti range in mpg (litres/100km):

urban	37.7 (7.5)	-	53.3 (5.3)
extra urban	50.4 (5.6)	-	68.9 (4.1)
combined	44.8 (6.3)	-	62.8 (4.5)

CO₂ range 147 - 118g/km

[†]Lower efficiency when using lower RON petrol.

We measure the maximum power output figures of our engines in PS or Pferdestärke (horse strength in German), which is the metric equivalent of bhp. To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

* Fuel consumption and CO₂ figures are obtained under standardised EU test conditions (Directive 93/116/EEC). This allows a direct comparison between different manufacturer models but may not represent the actual fuel consumption achieved in 'real world' driving conditions. More information is available on the ŠKODA website at skoda.co.uk and vca.gov.org.

Band	CO ₂ (g/km)	First 12 Months ¹ VED ²	Standard VED ²
A	Up to 100	£0	£0
B	101 - 110	£0	£20
C	111 - 120	£0	£30
D	121 - 130	£0	£110
E	131 - 140	£130	£130
F	141 - 150	£145	£145
G	151 - 165	£180	£180
H	166 - 175	£295	£205
I	176 - 185	£350	£225
J	186 - 200	£490	£265
K	201 - 225	£640	£290
L	226 - 255	£870	£490
M	Over 255	£1,100	£505

OTR (Recommended On The Road)

Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.

¹ First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2015. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Edition:UK 1st April 2015. VAT is calculated at 20%. Please confirm figures with your ŠKODA Retailer.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 42.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind) The BiK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2015/2016.

ŠKODA Solutions. Your journey, your choice.

ŠKODA Financial Services like to do things a little differently, that's why for many years we've specialised in providing simple and convenient funding options for ŠKODA drivers. It's what we know.

ŠKODA Solutions, the personal contract plan, is all about you; a flexible, competitive fixed-rate plan designed around you and your budget, putting you firmly in the Yeti driving seat.

Solutions is different because you defer a proportion of the car's value until the end of the agreement, giving you significantly lower monthly repayments than if you'd taken out a loan...ever heard of a bank being so imaginative?

Solutions is totally flexible. You get to choose the size of your deposit (from as little as one monthly payment), and a repayment period which suits you and at the end of the term you have 3 options to choose from.

- 1  Part-exchange the car for a new ŠKODA on a new Solutions contract.
- 2  Pay the optional final payment so that you own the car.*
- 3  Circumstances changed? Return the car to us (subject to terms and conditions).

 **DEPOSIT**

As little as one repayment

 **BALANCE**

A flexible repayment period
(18-42 months)

   **OPTIONAL FINAL PAYMENT**

3 choices at the end of the agreement

ŠKODA Financial Services also offers hire purchase, contract hire and service and maintenance plans.

Speak to your ŠKODA retailer for your personalised quotation today

Free Insurance for 3 years.

No-one likes to think about their ŠKODA being damaged in an accident. But if it was you'd no doubt want it repaired to ŠKODA standards, by a ŠKODA trained technician using only ŠKODA genuine parts. Would your motor insurance provider guarantee to do that? We didn't think so...

That's why we came up with Ensurance - ŠKODA's free accident and repair cover.

Ensurance works alongside your existing comprehensive motor insurance policy, no matter who you are insured with, to help get you back on the road as smoothly as possible. Better still, it's free for three years and is available on both new and older models.

Your free Insurance cover includes:

- > Guaranteed use of a ŠKODA approved repairer, ŠKODA trained technicians and the use of genuine ŠKODA parts and paints
- > A dedicated Claims Manager who will look after your entire claim from start to finish
- > Help to recover any uninsured losses with our Legal Expenses Cover
- > An Online claims tracker so you can keep up to date with the status of any claim

To benefit from Ensurance you'll need to activate your free cover which takes less than a minute.

We hope you don't ever have to use your policy but it's nice to know it's there - just in case.

Remember to call us first,
Ensurance will help deal
with the rest...

Your car is **guaranteed** to be repaired by a ŠKODA Insurance approved repairer. Only **genuine** ŠKODA parts **will be used**.

For more information and to take out cover today visit skoda-ensurance.co.uk

*Subject to payment of the option to purchase fee. An offer of finance depends on certain conditions. Subject to status. Available to 18's and over in the UK only. ŠKODA Financial Services is a trading name of Volkswagen Financial Services (UK) Limited ("VWFS UK"). Registered in England and Wales No. 2835230. Registered Office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Financial and consumer credit services are provided by VWFS UK. Volkswagen Financial Services (UK) Limited is authorised and regulated by the Financial Conduct Authority, registration number 311988.

Owning a ŠKODA

We make sure it's easy, fun, and stress-free.

ŠKODA customer service is officially award-winning. We have been voted Number 1 in four of the last five Auto Express Driver Power Surveys.

Network capability

You can enjoy our award-winning customer service through our network of around 165 Authorised Repairers.

As a ŠKODA customer, you will be looked after by your retailer from the moment you walk through the door and throughout the life of your ŠKODA. Your Yeti will be serviced and maintained to the highest standards by specially trained ŠKODA technicians. And when you need a spare part, you'll be happy to know that most are held in stock, or can be ordered within 24 hours.

The ŠKODA Customer Promise is a commitment from our retailers to offer:

- > Care and consideration for you and your car
- > A flexible and convenient service
- > Expertise and attention to detail
- > A clear explanation of our work

Roadside Assistance

A three year, European-wide, unlimited mileage ŠKODA Assistance policy comes free of charge with every new ŠKODA.

There's a team of specially trained Technicians who carry the right diagnostic equipment and parts to get you back on the road as quickly as possible in the unfortunate event of a breakdown. They'll even help you if you fill up with the wrong fuel, lose your car keys, or get a puncture.

Warranty

When you buy your new ŠKODA through our authorised retailer network, it is automatically covered by a three year, 60,000 mile manufacturer's warranty.

There's no mileage limit on the warranty in the first two years and for additional peace of mind there's a 12 year body protection warranty.

You can even extend your warranty to four or five years, see the option page for prices and page 34 for further details.

Warranty cover from new			
First 2 years	First 3 years	4-5 years	Up to 12 years
Unlimited mileage	3 years or 60,000 miles, whichever is sooner	Optional Extended Warranty	Body Protection Warranty

Further information

You can find lots of additional information about owning a ŠKODA on our website at skoda.co.uk. Our retailers are always happy to help with any questions, backed up our dedicated Customer Service Centre. We look forward to hearing from you soon.

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

Elements of the ABS System :-

• **Dual Rate Vacuum Brake Boosters:** increases brake effort under emergency braking conditions.

• **EBC:** Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.

• **EBD** (aka EBV): Electronic Brake Distribution automatically distributes different pressures to the front and rear brakes to stop the rear wheels from locking up under heavy braking. It also compensates for loaded and unloaded vehicles therefore doing away with the need for a Load Sensing Valve on the rear axle.

AdBlue®: Diesel engines with SCR (Selective Catalytic Reduction) technology require AdBlue® which must be kept topped up and may require refilling between services.AdBlue® is a non-toxic, non-flammable, biodegradable urea and water-based liquid additive that processes the gases in a car exhaust system to remove harmful nitrogen oxide (NOx) emissions. Please contact your local ŠKODA retailer for more information.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

CR: the completely new range of diesel engines are built on a system of Common-Rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines and significantly reduce emissions.

DPF: Diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

ESC: Electronic Stability Control is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESC constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESC reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine’s output.

Elements of ESC system:-

• **ASR:** Anti-slip regulation traction control ensures the Yeti’s stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

• **MSR:** the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.

• **EDS:** the Electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

• **HBA:** Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.

• **DSR:** Driver Steering Recommendation – in a crisis situation it helps the driver stabilize a skid by making a slight intervention in the steering.

• **ESBS:** Electronic Stability Brake System – targeted interventions in the braking process improve the handling of a car as it brakes when passing round a bend and keeps it from veering.

AFM: records and assesses all available data about the journey to optimize the ESC system’s reactions, which can thus be adapted to any driving style and the current vehicle payload.

HHC: Hill hold control allows for a safe hill start by holding the brake for a small amount of time, reducing the risk of unintentional reversing or roll back.

TPM: Draws the driver’s attention to any pressure loss in any of the tyres. Early warning can prevent damage from occurring as a result of an under inflated tyre or a defect that radically changes the cars behaviour and driveability.

Xenon lights: the Xenon lights produce about 2.5 times the light of standard Halogen lights with 35% less energy consumption.

Customer services

Talk to us on 03330 037 504

No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open from 8.30am-5.30pm. If you’re calling out of hours, then a message can be left and you’ll be contacted back.

Peace of mind with a ŠKODA warranty

In the first two years of owning your car, you’ll get the peace of mind of a two year unlimited mileage warranty. In addition, you’ll also get a further warranty on new vehicles supplied through the appointed dealer network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner.

Your Yeti also benefits from a 3 year paint warranty and 12 year body protection warranty.

A network that’s here to help

With 17 years in the top 10 of JD Power’s customer satisfaction survey, our network of approximately 160 authorised repairers know how to treat a customer. You can be sure that as a ŠKODA customer, your retailer will look after you from the moment you walk through the door, throughout the life of your ŠKODA. Your Yeti will be serviced and maintained to the highest standards by specially trained ŠKODA technicians. And when you need a spare part you’ll be happy to know that most are held in stock, or can be ordered within 24 hours. So if top class customer satisfaction is what you’re after, the ŠKODA network will be there for you.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from ŠKODA. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

If your ŠKODA’s in trouble, rely on ŠKODA Assistance

Completely free of charge, every new ŠKODA is covered by ŠKODA Assistance. This cover lasts for 3 years, with no mileage limit. So if you ever break down, you can use the freephone number to call out someone who really knows about ŠKODA cars to help. This service is even available in Europe, so you don’t need additional breakdown cover when you’re driving on the continent.

Financing your ŠKODA

We all know that times are hard, so ŠKODA Financial Services specialises in providing funding solutions for ŠKODA drivers. Regardless of whether you’re a private or business user, you can choose from a range of funding options.

Finance products available are:

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all ŠKODA Financial Services products you can choose a fixed-cost maintenance plan designed to help you budget accurately. No matter what finance product you choose, your local ŠKODA retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs. ŠKODA Financial Services is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Adding that little extra to your car

If the standard specification and factory fitted options aren’t enough for you, then why not take a look at our range of retailer fitted accessories? A separate accessories brochure can be found at your local retailer, or can be ordered by phoning our call centre, or by going on-line at skoda.co.uk

Warranty

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers.

Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, ignition adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

- Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
- Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer’s guidelines.
- Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
- Damage caused by an accident.
- Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
- Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, loss of personal effects or income are not recoverable under the terms of the warranty.

Service Intervals

When you order your Yeti, you can choose whether your car is on a fixed or a flexible service regime. Your retailer will help you decide which regime suits how your car will be driven, enabling your car to stay in the best possible shape.

Fixed regime: Service every 10,000 miles or one year (whichever comes first). This is recommended if the vehicle is likely to be used in the following way:

- Driven fewer than 10,000 miles per annum **and/or**
- Mainly short journeys, drive mostly in towns or cities **and/or**
- High vehicle loading/towing and frequent hill climbs **and/or**
- Heavy accelerating and braking, using high revs

Flexible regime: Sensors in the engine detect when a service is needed. You will be informed of this by a service light which will show at any point between 9,000 and 20,000 miles, up to 24 months (whichever comes first).

The flexible service regime is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly and mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

The information in this brochure referring to specification, design, equipment, material and external appearance relates to the time at which this brochure was printed. Whilst every effort is made to ensure its accuracy, the information in this brochure is not binding and is subject to alteration. Some illustrations in this brochure depict left hand drive models, with both standard and optional equipment shown. Please confirm exact specifications, prices and colour availability with your SKODA retailer who will be notified of any specification changes as they occur.
