Issue 8

TX

TX - AT A GLANCE

Built for purpose. Designed to deliver.

- 1** **Iconic styling.** Distinctive circular headlights, coach-doors, a bold front grille, and an instantly recognisable roofline.
- 2** **eCity technology.** Range-extended electric, zero-emissions capable technology reduces running costs and gives unrivalled range flexibility.
- 3** **Driver comfort.** Your mobile office, ergonomically and thoughtfully crafted for long hours at the wheel.
- 4** **Technology.** From cruise control to parking sensors, the latest equipment and driver aids are designed to make your life easier.
- 5** **Passenger experience.** Seating for up to six people, a panoramic glass roof, charging ports and fast on-board Wi-Fi.
- 6** **Safety.** A strong body structure, full complement of passive safety systems and cutting-edge active driver assistance provides peace of mind.

EXTERIOR COLOURS

Stand out from the ranks.

With a choice of unique colours, the TX offers a wider range of paint options than ever before, including metallic and pearlescent finishes.

Raven Black Non-metallic No Cost	Bristol Blue Non-metallic No Cost	Alpine White Non-metallic £245	Sunburst Yellow Non-metallic £245	Sherwood Green Non-metallic £245	Storm Grey Metallic £495
Lunar Silver Metallic £495	Ocean Blue Metallic £495	Charcoal Grey Metallic £495	Nightsky Blue Pearlescent £595	Tupelo Red Pearlescent £595	Starlight Black Pearlescent £595

Icon trim level body colours include black painted lower exterior trim, grille surround, door handles and wheel centre caps in place of chrome. With the exception of the classic Raven Black body colour, TX incorporates gloss black door mirrors and black painted pillars to create a contemporary 'floating roof' styling effect.

OPTION PACKS

Make more of your TX.

The TX is the most well-equipped taxi we've ever built.

The VISTA specification blends high-end accommodation for both driver and passenger with innovative technology and user-friendly features.

The new ICON trim level offers greater configurability, with some previously standard features offered as optional equipment.

We've made some of our most popular equipment available in a range of option packs, designed to save you money and enhance your driving and ownership experience even further.

HIGHLIGHTED FEATURES

Explore the TX in detail.

Air-pollution sensor.

TX not only filters the air you breathe to prevent contaminants from entering the cabin, it monitors the quality of the air flowing to the interior vents and automatically closes the intake if high levels of pollution are detected, protecting you and your passengers from any harmful effects.

Standard on all models.

Panoramic roof.

The roof panel incorporates layers of thick, reinforced glass with a tinted security film between them. The film blocks 95% of emitted light energy from entering the cabin, creating a secure and pleasant environment for passengers to enjoy dramatic views of the skyline.

Optional on ICON, standard on all other models.

Electrical accessory interface.

The new TX has been designed to meet the requirements of modern passengers; the interface allows quick, simple and safe electrical installation of a wide range of aftermarket devices without damage to existing wiring harnesses.

Standard on all models.

Swivel seat.

Within the passenger compartment, the outer flip seat can rotate to a fixed position outside the passenger door. When used in conjunction with the wheelchair ramp, even passengers with severe mobility challenges are able to enter the vehicle without unnecessary hassle for them or for the driver.

Standard on all models.

Dedicated on-board Wi-Fi.

Passengers will be able to connect to the inbuilt Wi-Fi on-board the TX. A dedicated USB socket, located in the driver compartment for optimum signal, will allow passengers to connect to the Wi-Fi. The high-speed Wi-Fi dongle is included with the taxi, along with a 12 month data contract.

Optional on ICON, standard on all other models.

Main beam assist.

The bright, efficient LED headlights are fully-automatic and feature electronic self-levelling, on/off control and a sensor that detects other vehicles and street lighting to switch between dipped and main beam automatically, so you're assured of optimum visibility at all times.

Optional on ICON, standard on all other models.

PRICING

Value as standard.

Be even better equipped with the Comfort and Comfort Plus packs. From a luxury heated driver's seat with electric adjustment to a rear-view camera and satellite navigation, these packs offer our most popular options and unbeatable value.

The Plug-in Taxi Grant (PITG) applies to Wheelchair accessible versions purchased for use by licensed taxi drivers. Vehicles purchased by other parties or without wheelchair accessibility instead qualify for the £3,500 Plug-in Car Grant.

**Icon taxi OTR of £53,794 features optional Wheelchair Accessibility Pack at £795 inc. VAT. OTR figure is net of OLEV Plug in Taxi Grant which is £7,500.*

***Business users only. Terms and conditions apply. Finance Illustration refers to Personal Contract Purchase 7.3% APR Representative figures based on TX Icon/Vista/Comfort/Comfort Plus at £53,794/£57,099/£58,399/£59,699 OTR with a customer deposit of £3,750.00, followed by 60 monthly payments of £764.80/£796.19/£819.76/£842.77 (equivalent weekly payments of £176.49/£183.74/£189.18/£194.49) plus an optional final payment of £16,492/£18,890.00/£19,050.00/£19,250.00. Based upon an annual contracted mileage of 30,000 (150,000 miles over term). All prices inclusive of VAT. £0 deposits may be available. Two, three or four-year plans are also available. 3 years 120,000 miles comprehensive vehicle/5 years unlimited mileage drive battery warranties included. You have the option at the end of the agreement to return the vehicle and not pay the Final Payment. If the vehicle has exceeded the allowed mileage a charge per excess mile will apply. In this example, 6p per excess mile. If the vehicle is in good condition and has not exceeded the allowed mileage you will have nothing further to pay. Credit is subject to status and is only available to UK residents aged 18 and over. Finance is provided by Black Horse Taxi Finance a trading style of Black Horse Ltd, St William House, Tresillian Terrace, Cardiff CF10 5BH. Not to be used in conjunction with any other offer. Excludes Meter, credit card equipment and any local authority fees.*

OWNERSHIP

Built-in peace of mind.

Servicing

Long service intervals of 25,000 miles mean less downtime for you, and our fully trained technicians are equipped with the latest systems and tools to keep your TX performing at its best.

Roadside

LEVC have partnered with the RAC to give TX drivers access to their 1,500 patrols, 24 hours a day, seven days a week. So wherever you are in the UK, help is never far away. RAC Roadside Assistance is included free of charge for 12 months with every new TX.

Home charging

The most convenient and cost-effective place to recharge the TX is at home. Through Chargemaster, LEVC can offer a one-stop home-charging solution for just £299 including VAT, which includes a £500 contribution from the Office for Low Emission Vehicles (OLEV). Contact your local dealer and sales team for further details.

OPTIONS AND ACCESSORIES

Make it yours.

Whatever you need to make the TX truly yours. From a heated windscreen (with timed cut-off) to combat cold morning starts, to integrated satellite navigation with traffic updates, a wide range of standalone equipment can be added at your request.

Dealer fitted accessories.

Enhance your driving and ownership experience with dealer-fit accessories that are truly designed around you. All our accessories are custom made for the TX, and can be fitted at your request by your authorised LEVC dealer.

WARRANTY

Class-leading protection.

The new TX has been designed and rigorously tested to meet the demanding requirements of a purpose-built taxi. The drive battery is protected by a market-leading, five-year, unlimited mileage warranty, and every TX is also covered by a fully comprehensive whole vehicle warranty for three years, or 120,000 miles (whichever is sooner).

All non-wearing components, from motors to ball joints to bushes, are covered against manufacturing defects for the full duration of the warranty - which means no unforeseen repair costs and a hassle-free ownership experience.

Extended Warranty

Our Extended Warranty offers even greater peace of mind, increasing the whole vehicle cover up to five years and 150,000 miles.

For drivers covering lower mileage, we also offer an Extended 'Plus' Warranty which mirrors the cover provided by the normal Extended Warranty but adds additional cover for major drivetrain components (such as the drive motor and range-extender) up to 90 months from date of registration.

Warranty	Whole Vehicle	Drive Battery	Drivetrain (exc. Drive Battery)	Price (inc. VAT)
Standard	3 Years / 120,000 miles		3 Years / 120,000 miles	Included
Extended		5 Years / Unlimited mileage	5 Years / 150,000 miles	£649.00
Extended Plus	5 Years / 150,000 miles		7.5 Years / 150,000 miles	£999.00

For full Terms and Conditions, please visit: www.levc.com/site/terms-and-conditions

* Mapping data is provided by HERE Global B.V. and is provided free of charge for as long as the current mapping standard is supported, for a minimum of five years from date of purchase.

RANGE AND EMISSIONS

Class-leading efficiency.

The way fuel economy, emissions, and range is calculated is changing...

A new standard for measuring emissions, energy consumption and range has been introduced for all vehicle manufacturers. The WLTP test (Worldwide Harmonised Light Vehicle Test procedure) replaces the NEDC (New European Driving Cycle) that has been in use since 1992. The new standard has been put in place in an effort to produce figures more representative of real-world driving. The two sets of figures are simply different ways of measuring the economy and emissions of the same vehicle.

These new WLTP figures are shown alongside the existing NEDC ones in the Technical Specification. This is because vehicle taxation is still calculated based on the NEDC figures, but it also enables you to compare like-for-like with older vehicles, which use the NEDC standard.

From April 2020, the new WLTP figures will be used for tax purposes for all newly registered vehicles, and the old NEDC standard will be discontinued.

Drive Modes

Can I expect to achieve the new economy figures?

The test is designed to provide official figures closer to what drivers could achieve in the real world, but the main purpose is still to enable comparisons between different vehicles. Fuel and electricity consumption will vary during real-world driving due to the large number of variables involved; such as weather, traffic, equipment used, number of passengers on-board and so on, as well as driver behaviour. To learn more about how you can maximise your fuel savings, watch our video guide at www.levc.com/driving-tips.

The new procedure changes the way lab tests are conducted, reflecting the improved capabilities of modern test-facilities. A real-world testing element has also been introduced for the first time, measuring actual emissions from the tailpipe using portable equipment. If you'd like to know more about the new WLTP test, please visit www.wltpfacts.eu.

TECHNICAL SPECIFICATION

Overview.

Servicing		
Service interval	25,000 miles	
Motor and battery		
Driven wheels	Rear	
Peak power	110 kW / 150 PS

Front suspension	Dual-axis Macpherson strut / anti-roll bar	
Rear suspension	Double-insulated, 5-link with transverse composite leaf spring	
Luggage space		
Luggage capacity	440 L	

* For more information on the new WLTP emissions test, please visit www.levc.com/emissions. ** The NEDC and WLTP test must consider the worst case operating scenario and therefore do not include any benefit from regenerative braking. *** 81 miles electric-only range, plus 344 miles range-extended (36 litres at 43.5 mpg)

* The kerb weight refers to the vehicle in running order (with standard equipment) without the driver, passengers or load but with the fuel tank 90% full. ** The mass in running order includes the kerb weight plus a driver at 75 kg. *** The payload includes the weight of the driver and passengers, luggage and all accessories. **** The maximum permitted weight of the vehicle, including driver, passengers, luggage and accessories.

TECHNICAL SPECIFICATION

Dimensions.

The specifications of the vehicles produced by LEVC for sale in the UK will vary. The model shown in this brochure is for illustrative purposes only and incorporates optional equipment and accessories not fitted as standard. What is considered standard or optional equipment may also vary, and the configuration options of the individual models are likely to change after the publication date, from time to time and from territory to territory. For more information about country-specific vehicle versions, please contact your local LEVC supplier. Every effort has been made to ensure that the contents of this publication were accurate and up to date at the time of going to press (October 2019). LEVC vehicles are equipped with components manufactured by various GEELY Group operating units and outside suppliers. The Company reserves the right to make modifications to the vehicles, alter pricing specifications, equipment and withdraw products from sale without notice. Any such alterations will be notified to LEVC retailers at the earliest opportunity, however please consult your local retailer for the latest information.
