Make work easy
Great options to keep you moving efficiently

7 ways your Van Centre can help you

PLUS Tips for picking your ideal van ● How our warranty works for you ● BlueMotion Technology explained

Whatever you're after, we've got a Caddy for you

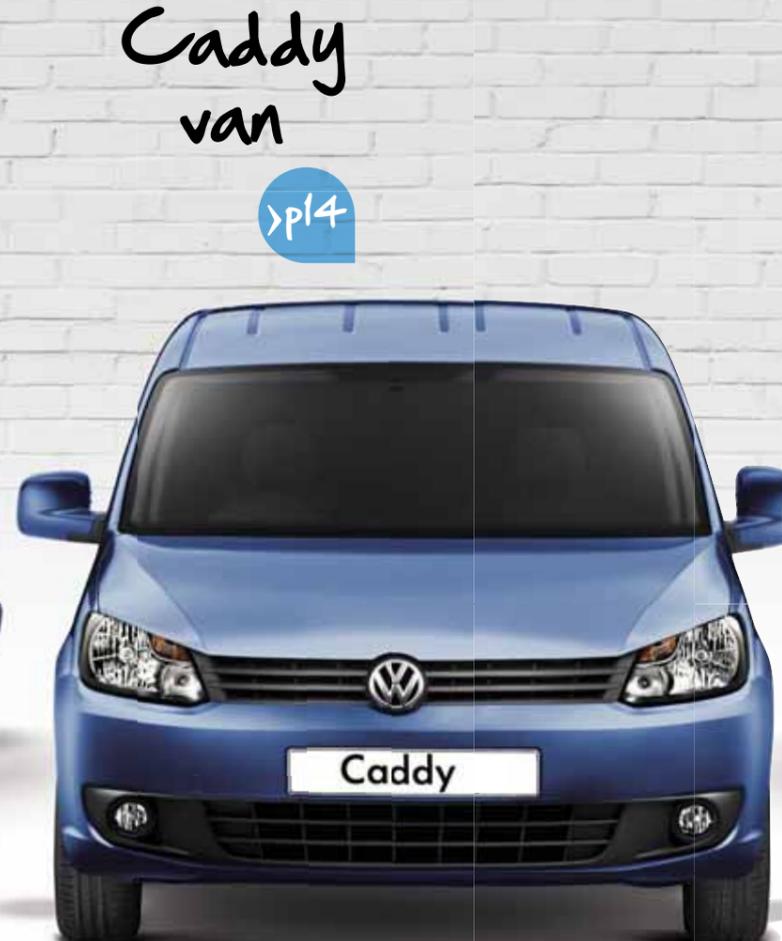

THE CADDY REALLY is the best of all worlds – compact but super-spacious, powerful but economical and practical but stylish. Volkswagen's award-winning Caddy crams a huge amount into a small package, making it every driver's best friend, whether they're delivering in the city or doing big motorway miles.

It's a flexible friend, too. With two wheelbases, a variety of door options for easy loading and a model that can carry up to five people, there's a huge amount of versatility on offer. Don't forget that every Caddy comes with a host of safety innovations and great support from Volkswagen, too.

Delivering the goods. It's what we've always done...

Today's much-loved, award-winning Volkswagen vans are only the latest step in a 60-year journey that started with one clever idea

In 1947, Dutch importer Ben Pon spotted workers at Volkswagen's Wolfsburg factory using a stripped-down Beetle to move parts around. Inspired, he sketched the platform for a versatile commercial vehicle that could be adapted to a multitude of uses. From this sketch, the Transporter was born, and the van world has never looked back.

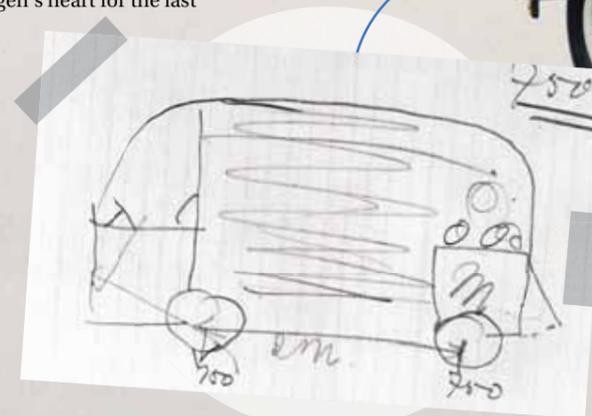

Brilliant then, even better now

Since 1950, millions of Transporters have been built and have proved to be reliable workhorses for delivery drivers and tradesmen all over the world. There's more to owning a Volkswagen than just work, though – Volkswagen vans have always stood out from the pack, which has helped them build a loyal following, from the original 'Splittie' to today's sleek, modern models.

Reliability that endures

Today, Volkswagen's commercial vehicles are more popular than ever, with a diverse range of panel vans, kombis, chassis cabs, passenger carriers, camper vans and even pick-ups. Each is as versatile, spacious and reliable as Volkswagens have always been, but now they're more comfortable, easier to drive and more fuel-efficient than ever before. They're all backed up by a Van Centre network that's ready to solve any problem you may have, too.

Getting the job done efficiently and reliably has been at Volkswagen's heart for the last 60 years, and that's why you can trust us to deliver a van that works for you.

Transporter

The Transporter has been the mainstay of our van range since 1950. It still embodies the original's attributes of space, versatility and reliability, but is now more efficient than ever.

California

The definitive Volkswagen camper van is a true home from home, with four sleeping berths, a fully fitted kitchen and an electric pop-up roof.

Caddy

The compact Caddy has city-friendly dimensions and a car-like feel, but it can still carry big loads or plenty of passengers. Wide rear doors make loading simple, too.

Crafter

The Crafter is the van to have for seriously big tasks. It's available as a van, a chassis cab that you can customise in lots of ways or a window van, and has a payload of up to three tonnes.

Caravelle

For the ultimate level of executive comfort, only a Caravelle will fit the bill. It's an outstanding, flexible passenger carrier that can carry people and their luggage efficiently and easily.

Amarok

The Amarok joined the range in 2011. Its off-road and load-shifting credentials earned it the 'International Pick-up of the Year' award, and press praised its comfort and ease of driving.

Trust your Van Centre network

OWNING A VAN is about more than just the vehicle – it's about support, too. That means helpful advice, affordable finance, and maintenance and servicing to keep your van running more efficiently for longer. That's where our network of over 100 Van Centres and Authorised Repairers comes in. All our staff are fully trained to solve any problem you may have. • Find out how your local Van Centre can help right now – see pages 28-29.

Volkswagen round-up

Accolades and awards ● BlueMotion Technology across the range ● New trims for Caddy and Transporter

Volkswagen vans shine under awards spotlight

Volkswagen Commercial Vehicles has won a host of awards in recent months, including the title of 'Manufacturer of the Year' for 2012 from *Van Fleet World*.

The magazine also awarded the Transporter its 'Best Medium Van' prize, while the Caddy was 'Best Small Van'.

The Transporter was named 'Medium Panel Van' and 'Fleet Van of the Year' for 2012 by *Fleet Van*, while the top-of-the-range Transporter Sportline was *What Van?* magazine's 'Editor's Choice'.

The Caddy 4MOTION® was *What Van?*'s '4x4 of the Year', while the Amarok won 'Pick-up of the Year' from *What Van?* and 'Best Pick-up' at the British Insurance Vehicle Security Awards. The Amarok is also *4x4 Magazine's* 'Pick-up of the Year'.

To cap it all, Volkswagen Commercial Vehicles topped the *Fleet News* FN50 Reliability Survey as the 'Most Reliable Van Manufacturer', with the Caddy, Transporter and Crafter all in the top six.

These awards recognise and prove that our promise to you is truly alive and well. That promise is to bring you products that are more versatile, reliable, efficient and better value for money than ever.

Caddy Match sells out fast

The limited-edition Caddy Match – packed with a wealth of the most popular options – was a huge hit before orders closed on April 30. Make sure you don't miss the next special edition – follow our Twitter feed at [Volkswagen_CV](#)

BlueMotion Technology is here

BlueMotion Technology offers increased fuel efficiency and reduced carbon emissions, and it's available on most models in our range. To find out how BlueMotion Technology can help cut your fuel bills, turn to pages 20-21 or ask your Van Centre for details.

Finance that makes buying your vehicle easy

Getting your hands on a new van or passenger carrier from Volkswagen Commercial Vehicles could be even more affordable – and easier – than you think.

We've got a great range of finance deals that allow us to tailor a solution to the needs of your business and your pocket. That might be a lower initial deposit, or regular, fixed monthly payments that include pre-planned costs

for servicing and maintenance. It all helps you know exactly how much your vehicle will cost now and over the long term.

We have special finance offers, too, which offer you even more value for money, and they're regularly updated. You can find all the latest deals at [www.volkswagen-vans.co.uk](#), or pop into your local Van Centre to find out how we can help you.

New trims offer outstanding value

Now there's even more choice for Caddy and Transporter buyers, thanks to the introduction of new trims that offer a great pack of features at one easy price.

That makes buying a van with a high level of specification really simple and delivers you great value for money.

On Transporter panel vans and kombis, and Caddy panel vans,

Trendline and Highline trims bring extra features to the already well-appointed standard model. On the Transporter, you can also go for the ultra-high-level Sportline trim to really mark out your van and your business from the pack.

If you need to add even more features, there's an extensive list of factory-fit options and Add On accessories.

Get even more with Add Ons

Add Ons is Volkswagen Commercial Vehicles' range of accessories, with lots of work, technology and leisure products that can be fitted by your Van Centre at any time. See page 49 for more details.

Keep track of your vehicle, engine and option choices using our handy checklist – you'll find it inside the back cover

"With the Caddy's reliable engines, we're not only saving money, but we also have the peace of mind that our vans will be on the road 24/7."

Chris Ayling, Global Options

"My Caddy has a five-speed manual gearbox and it's as easy to use as a car's. It's very straightforward to drive around towns and on motorways."

Neil Harrison, Neil Harrison Photography

"The Caddy offers a brilliant driving experience – it's comfortable, economical... in fact, everything you want it to be."

John Allison, Classic Images

Driving

Get from A to B easily and in comfort

"Our vans do about 50,000 miles a year, so comfort for our drivers is important. Caddys offer us exactly what we need."

Chris Ayling, Global Options

Want to book a test drive? Contact your nearest Van Centre, visit www.volkswagen-vans.co.uk or call us on 0800 717131

Parking is easy

The Caddy is about the same length as a family hatchback, making it easy to park. If you add front and rear parking sensors, getting into tight spots is even easier.

Take the strain out of daily driving

The Caddy is brilliant for everyday deliveries – and options such as DSG and 4MOTION® four-wheel drive make driving easy

The Caddy is your ideal partner. Roughly the same length as a family hatchback and with powerful, economical engines, it marries generous loading space with small-car driving characteristics.

Flexible driving

With a great range of turbo-diesel engines and a choice of BlueMotion Technology models, you can pick the right engine for your needs. All engines comply with Euro V emissions standards and are quieter and more fuel-efficient than ever before. These TDI engines provide strong pulling power, even at low revs, while greater efficiency means lower fuel costs.

You can have an easy-to-change five- or six-speed manual gearbox, or our optional seven-speed, Direct Shift Gearbox (DSG). Its fully automatic gear changes make it great for city driving.

Safety as standard

Every Caddy comes with features that enhance driver safety. Most are fitted as standard. Volkswagen's ESP (Electronic Stability Programme) works with ABS (Anti-lock Braking System), EDL (Electronic Differential

Lock) and TCS (Traction Control System) to help improve safety. Automatic hazard lights alert other drivers during emergency braking, while an immobiliser and remote central locking keep everything secure.

Off-road ability

Need more traction? Consider the Caddy Maxi's optional 4MOTION® all-wheel-drive system. It automatically sends power to the wheels that need traction most, so you can relax, knowing that 4MOTION® is always ready to help you out of tricky situations.

The Caddy's car-like driving characteristics make getting to your job a pleasure

Driving tech explained

Direct Shift Gearbox (DSG)

Our six- or seven-speed, Direct Shift Gearbox (DSG) is great for city driving. It can be used either as a fully automatic gearbox or as a quick-shift manual – just nudge the gear lever forwards or backwards to change gear up or down.

4MOTION

4MOTION® is an all-wheel-drive system that helps maintain optimum grip in all conditions. If one wheel loses traction, 4MOTION® reacts in milliseconds and sends power to the wheels with the most grip.

Equipped for everyday work

Your Caddy's cab is designed to be the perfect fit. It comes with plenty of practical features to make your daily life easier and provide a great place to work

We've built the Caddy's cab around you. It's comfortable to be in when you're on the road and an ideal mobile office that helps you keep your business working. The Caddy gives you the tools and features you need to make that possible.

A cab that fits like a glove

You'll always feel comfortable in the Caddy's cab. The driver's seat adjusts for height, rake and reach, and the speed-sensitive steering means you never have to work hard at the wheel. A super-clear dash and controls that fall easily to hand mean you can spend your time fully focused on the road ahead.

Stay connected

We know how important it is that you stay in touch with your clients. That's why we offer optional Bluetooth phone connectivity, allowing you to speak when on the move. With a selection of high-quality audio and satellite-navigation systems to choose from, you can also keep yourself entertained and on the right road wherever you are going.

Electric windows and mirrors are a useful, convenient option

Bluetooth allows you to use a phone without taking your hands off the wheel. This option comes with a multi-function display

"I use the overhead compartment a lot! My sunglasses, phone, and documents are stored there. I use the space under the passenger seat, too, as it's out of sight."

Neil Harrison, Neil Harrison Photography

Ultra-clear dashboard

All controls are easy to use, so you stay focused on the road. **Want more?** Pick a multi-function steering wheel – it lets you use a range of systems without taking your hands off the wheel. See page 42.

Great sound

Every Caddy has an RCD 210 radio with CD player and aux-in socket. **Want more?** Go for a radio upgrade – we've got a huge choice. See page 36.

Fresh air all the time

Standard dust and pollen filters help prevent allergies from affecting your driving. **Want more?** Pick air-conditioning or climate control to help keep you refreshed all day long. See page 44.

A clear view ahead

You get wipers with an intermittent setting and wash-wipe as standard. **Want more?** Pick optional automatic rain-sensing wipers. See page 43.

A clear view behind

Tall door mirrors help you judge the height of your van and its position in tight spots.

Want more?

Choose electric windows and mirrors. You'll never have to stretch over to the passenger side to adjust the mirror again. See page 48.

Plenty of places to store your stuff

WORKING VEHICLES don't just carry the load in the rear – the cab carries all the clutter that fills your working day, too. That means invoices, drinks, laptops and more. You'll find plenty of cleverly designed storage areas in every Caddy – an open glove compartment, roomy door pockets and more storage places in the centre console and roof.

Your Van Centre can help you pick options that are right for you. Call 0800 717131 or visit www.volkswagen-vans.co.uk to find one near you

Loading

Roomy cargo bays and useful features that make life easy

Access all areas

Getting things in and out of the Caddy is easy – not only is the floor just 570mm high, but there are asymmetric rear doors and a sliding side door as standard. If you wish, you can add another side door or replace the rear doors with a tailgate that comes with a heated rear window and wash-wipe.

Caddy panel van

Small van, big loads

The best things come in small packages – and, in the case of the Caddy panel van, with big load bays. You'll be amazed at how much you can carry

For a van that's less than 4.5m in length, there's an awful lot you can cram into the back of a Caddy. With a host of loading options and accessories available to make it even more versatile, you can also carefully tailor the Caddy to suit your needs.

Easy to load, plenty of room

The Caddy is definitely the van about town, thanks to a generous payload and load volume that you'd simply never expect in a van this compact. You can fit up to 3.2m³ of cargo in the back and loads up to 1.78m long, and it's all easy to secure, thanks to six load-lashing rings. A floor height of just 570mm makes getting things in or out really easy, too, while a full-height bulkhead keeps you safe from loose items. With a sliding-side-door aperture that's 70cm wide and asymmetric rear doors, great access to your load is assured, too.

Sizing your load

An average washing machine will occupy about 0.25m³ of your Caddy's load volume and weighs about 70kg

More loading options

If you want even greater flexibility for accessing your cargo, you can order an additional sliding side door. This means that you'll be able to access the contents of your van from either side, so you can park on any side of the street for easy loading and unloading.

You can also opt to change the twin rear doors for a tailgate that comes with a heated rear window and wash-wipe system, or rear wing doors with opaque glazing. This prevents people seeing the contents of your van, which adds another useful level of security.

Want to carry crew instead?

A Caddy Maxi Life or Caddy Maxi window van could be for you. Call 0800 717131, visit www.volkswagen-vans.co.uk, or ask your nearest Van Centre for a brochure.

"With the sliding door and a large load area, the Caddy is really practical. It's surprising what we've got into it when we've had to – even a full-sized door, once."

John Allison, Classic Images

Caddy Maxi panel van

More room to work with

The longer-wheelbase Caddy Maxi offers all the same superb benefits as the standard Caddy, but has more cargo space for even greater capacity

If you need something a bit bigger than a Caddy, the Caddy Maxi offers all of the Caddy's practical benefits – same terrific low load floor and lots of load-lashing rings – but with even more space and better access.

Compared with the standard Caddy, the Caddy Maxi offers another cubic metre of load space (bringing it up to 4.2m³) and a load length of 2.25m – that's almost half a metre longer than the Caddy. It also offers a sliding door

on each side as standard, letting you access your load from each side. You can opt for a tailgate instead of the twin asymmetric rear doors if you wish, too.

Just like the Caddy, and for even more loading options, you can make full use of the streamlined roof-rail channels by specifying a set of Volkswagen load bars. These can carry up to 100kg and increase the variety of things you can carry in your Caddy Maxi panel van.

"A big plus with the Caddy Maxi are the sliding doors on both sides. Whichever side of the road you have to park on, you can get access without having to stand in the road."

Chris Ayling, Global Options

Caddy Maxi kombi

Cargo + crew = kombi

Need a small van that can shift workmates and the kit you need to do the job? Enter the Caddy Maxi kombi – a truly flexible compact van

See the Caddy for yourself. Call 0800 717131 or visit www.volkswagen-vans.co.uk to find a Van Centre near you

If you need to carry colleagues, the Caddy Maxi kombi will seat five people

Sometimes it's not enough to carry goods – sometimes you have to take workmates to jobs, too. Enter the Caddy Maxi kombi – a versatile van that can do both with ease. You can load it to suit your changing needs – with the rear seats in place, you can seat five people and still have enough room for 1.6m³ of cargo.

Fold the rear seats and you increase the load space to 3.9m³, or remove them to give you 4.1m³ – that's just a fraction smaller than the regular Caddy Maxi panel van. It comes with twin, glazed side doors and asymmetric rear doors for superb access.

Configured to your needs

Whether you're after roof bars or towing options to increase your load-carrying capacity, a durable load-floor covering or load lashing and storage options, we've got a whole range of solutions.

Not big enough for your load?

Engines

Technology that helps to cut fuel bills and lower emissions

"We get about 400-500 mainly urban miles to a tank. Our drivers have said they haven't had to fill up as much as they did before we changed to Volkswagen."

Jason Semple, Ringtons Tea & Coffee

Intelligent power to drive you on

The Caddy's turbo-diesel engines are at the forefront of technology, bringing you outstanding power with superb efficiency

Fuel is only ever likely to become more expensive, so our engines are designed to bring you more power while using less fuel than ever.

At the heart of the Caddy's impressive performance is a choice of flexible turbo-diesel (TDI) engines. Each delivers outstanding power with commendably low fuel consumption and CO₂ emissions.

Take the 75PS 1.6TDI engine, for example. It has 225Nm of pulling power, yet emissions are as low as 149g/km and it returns up to 49.6mpg (combined).

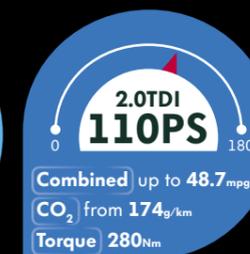

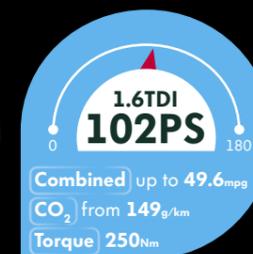

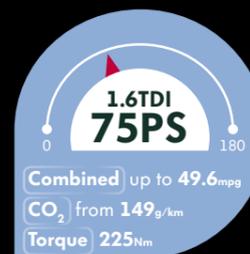

Need more? The Caddy's engine range goes up to the 140PS 2.0TDI, which brings combined fuel economy of up to 47.1mpg and emissions from just 158g/km.

Go even greener

If you want to take your fuel efficiency to a whole new level and cut emissions even further, you can always choose to add BlueMotion Technology to your engine package. These models have a range of fuel-saving technologies. To find out more, simply turn the page.

Engine specifications

See page 50 for full engine data

Why torque matters

Torque is often more important than power when it comes to an engine's performance. If you carry heavy cargo often, pick an engine with lots of torque. It will move a heavy load from a standing start better than one with less torque, and keep it moving more easily. A torquey engine may even use less fuel, because you won't need to rev it as much to get the best out of it.

Add a sat-nav

A sat-nav system can plot shorter routes and prevent you making wrong turns – some can even navigate around traffic jams. It all helps cut fuel consumption.

Driver training

Driver training can teach you to drive more safely and more economically. Ask the Freight Transport Association (www.fta.co.uk) for details on a course to suit you.

Top tips to help you save fuel

Cutting fuel use isn't just about engine technology – it's also about being clever. Follow our four tips to make your van as economical as possible.

Use your van's gearshift indicator

A gearshift indicator is fitted to all Caddys. It helps you change gear at the most efficient times, which cuts fuel use and lowers emissions.

Check your tyres

Up to 20% of a vehicle's fuel consumption is used in overcoming the tyres' rolling resistance. It's even more if your tyres are underinflated, so check them regularly.

More miles, less impact

BlueMotion Technology lowers your running costs and your van's carbon emissions, and it's available on almost all Caddy models

At Volkswagen, we're just as keen as you to cut carbon emissions. We're also just as aware that fuel costs are a big burden on van drivers, so improving our vehicles' efficiency only helps to deliver even better value to you. That's why we've introduced BlueMotion Technology to all Caddy panel vans and window vans.

The power of technology

All Caddys that carry the BlueMotion Technology badge include our fuel-saving solutions – start/stop, Hill Hold Assist, energy recuperation and cruise control – as standard. Together, they create instant fuel savings and

lower CO₂ emissions, bringing improved fuel economy of up to 55.4mpg (combined). The benefit is money – and time – saved at the pumps.

Three engines, all the options

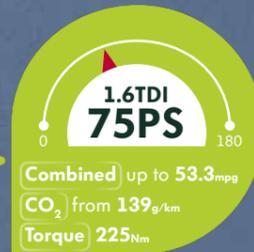

Three BlueMotion Technology engines are available for Caddys – two 1.6TDIs that offer 75PS or 102PS, and a 2.0TDI with 140PS. The 1.6TDIs deliver an average of 53.3mpg (75PS) or 55.4mpg (102PS), while the 2.0TDI manages an impressive 50.4mpg.

You can still customise your Caddy BlueMotion Technology model like any other Caddy – just ask your local Van Centre for details.

BlueMotion Technology engine specifications

See pages 50-59 for full engine data

How BlueMotion Technology works to lower your fuel bills and CO₂ emissions

BlueMotion Technology is available on Caddy and Caddy Maxi panel vans, and Caddy Maxi window van models, and is made up of four clever elements. Together, they significantly reduce fuel consumption and CO₂ emissions, which keeps money in your pocket and creates fewer harmful emissions. Here you can learn more about these elements and what they do.

Cruise control

By keeping your van at a constant speed, cruise control saves fuel that would normally be wasted when your speed fluctuates. It's especially useful for driving over long stretches, because it stops your speed creeping up unintentionally and reduces the driver's physical workload.

Hill Hold Assist

Hill Hold Assist helps you make a smooth, efficient getaway, every time. On steep inclines, the system holds the brakes at the optimum level to prevent you rolling back. This reduces the need for you to rev the engine unnecessarily.

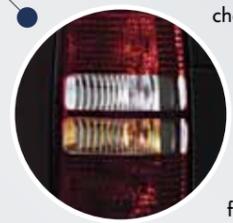

Start/stop

Start/stop allows you to save fuel at traffic lights. When you stop, put your van in neutral, release the clutch and the engine automatically switches off, saving fuel and reducing emissions. When you're ready to go, depress the clutch and the engine starts up again.

Energy recuperation

When braking, energy during deceleration is wasted. Our energy recuperation system uses some of that momentum to turn the alternator and charge the battery. If the battery is well-charged, the engine has to do less work turning the alternator to keep it topped up. This cuts fuel use and emissions.

Trims

A great range of trims that offer value and choice

Standard

A great van from the start

With a generous list of features and equipment as standard, the Caddy panel van is ready and waiting to go to work

The Caddy is ready to go straight out of the box – even before you add any extras. From in-cab comfort to load-bay convenience, and from safety to storage, the Caddy has it covered – as standard.

A comfortable, convenient cab

The generous cab specification reflects the thought that has gone into making the Caddy right for you.

For starters, the comfortable cab seats and adjustable steering wheel let you find your perfect driving position. Power steering makes light work of driving and parking around town, too.

For practical use, the open glove compartment is ideal for those everyday items, while the centre console provides even more storage. There are four drinks holders as well.

To keep you entertained, the RCD 210 stereo radio/single CD player provides high-quality sound whether you're listening to the radio or your own music.

Easy-access load bay

The Caddy's cargo area has been designed to make your life easy. Asymmetric rear doors allow you to handle loads of varying sizes, while a wide, sliding side door provides access from the kerbside. Six load-lashing points help keep everything secure.

Other thoughtful details include a rubber floor lining, and a hardboard roof and half-height side panels to

A sliding side door and asymmetric rear doors let you fit in loads of varying sizes

Keep it secure

All Caddys have six load-lashing rings, so you can fit cargo netting or ties to keep your load safe. A rubber floor helps to stop things moving around, too.

protect the interior from knocks. A heated rear window with wash-wipe ensures a clear view behind and a full-height bulkhead keeps you safe if your load shifts.

Safety first

Caddys come with an outstanding standard safety specification that includes Volkswagen's Electronic Stabilisation Programme (ESP). It uses the Caddy's safety systems – Anti-lock Brakes (ABS), Electronic Differential Lock (EDL), and Traction Control (TCS) – to keep your van stable during emergency manoeuvres.

There's also a driver's airbag and hazard warning lights that flash during emergency braking to warn drivers behind. Remote central locking and an immobiliser keep your van and its contents secure.

Standard features

- ✓ Asymmetric rear doors with heated window and wash-wipe
- ✓ Sliding side door (nearside)
- ✓ Hardboard roof and painted half-height side panels
- ✓ Full-height bulkhead
- ✓ Interior light in cargo bay
- ✓ Six load-lashing rings
- ✓ Rubber floor covering
- ✓ Power steering
- ✓ Four drinks holders
- ✓ Front seats with adjustment for reach and rake
- ✓ Driver's seat with height adjustment
- ✓ Open glove compartment
- ✓ RCD 210 stereo radio/CD player
- ✓ Anti-lock Braking System
- ✓ Electronic Stabilisation Programme
- ✓ Remote central locking
- ✓ Thatcham Category 2 immobiliser

Trendline

Packed with useful tech

Trendline models get style *and* technology – an RCD 310 sound system with ParkPilot display, Bluetooth, rear parking sensors and body-coloured bumpers

Trendline models take the Caddy's great looks and standard features, and add even more – inside and out. It's every inch a Caddy, but with smart details that will benefit you and your business.

Convenience comes free

Trendline brings a range of useful driver aids to your Caddy. A cruise control system offers comfort on long journeys while rear parking sensors make reversing into tricky spaces easy. Electric windows are standard, too, as are electrically adjustable and heated door

Did you know...

The Trendline includes under-seat storage.

mirrors. There's a Bluetooth phone connection, and a trip computer and multi-function display, as well as under-seat storage and a cover for the central storage compartment.

Sharp looks

With body-coloured bumpers, mirrors and door handles, the Trendline specification has a stylish look. And with smart wheel trims, this is a Caddy that combines practicality and presence.

Trendline features

(In addition to standard trim)

- ✓ RCD 310 single CD/radio with ParkPilot display (linked to rear parking sensors)
- ✓ Cruise control
- ✓ Electric windows
- ✓ Heated, electrically operated door mirrors
- ✓ Bluetooth connectivity
- ✓ Rear parking sensors
- ✓ Body-coloured bumpers, door mirrors and door handles
- ✓ Storage compartment under front seats
- ✓ Height adjustment for front passenger seat (driver is standard)
- ✓ Dashboard with tray cover
- ✓ Sun visors with vanity mirrors
- ✓ Carpet flooring in cab
- ✓ Wheel trims

Highline

Extra style, added cool

Air-conditioning, leather steering wheel, alloy wheels and front fog lights give our Caddy Highline models even more comfort and style

If image is important to your business, your van has to reflect that. Enter the Caddy Highline – it looks dynamic, but retains the Caddy's outstanding everyday practicality.

Style on the road

As well as body-coloured bumpers, mirrors and door handles, Highline models benefit from 15" Kemora or 16" Siracusa alloy wheels (with locking wheel nuts to keep them safe). Integrated front fog lights provide a distinctive look as well as improving driver visibility in adverse weather conditions.

Comfort in the cabin

Thanks to an extensive level of equipment, the Caddy Highline creates an ideal driving environment, whether the job involves motorway journeys or stop-start trips around town. In addition to Trendline models' high specification, Highline models have air-conditioning as standard.

They also get the high-quality RCD 310 radio with MP3-compatible CD player and Bluetooth connectivity, while a leather steering wheel and gearknob make the cab look really smart.

And when you're with your clients, a standard Thatcham Category 1 alarm is there to let you know if anyone should attempt to steal your van or its contents.

Light work

Fog lights help to improve visibility when weather conditions deteriorate

The Caddy Highline trim includes a leather steering wheel and gearknob

Climatic air-conditioning comes as standard on Caddy Highline models

Highline features

(In addition to Trendline trim)

- ✓ 15" Kemora alloy wheels (with locking wheel nuts) – all models except 140PS
- ✓ 16" Siracusa alloy wheels (with locking wheel nuts) – 140PS models
- ✓ Climatic air-conditioning
- ✓ Leather steering wheel and gearknob
- ✓ Front fog lights
- ✓ Thatcham Category 1 alarm and immobiliser

Full support right from the start

"For me, my van is like any other tool I use: the less I have to think about it, the better. Using a Volkswagen has been so hassle-free."

Gary McKee, Miele

We want to make sure that using your van is as hassle-free and cost-efficient as possible, so every vehicle comes with a three-year warranty and a choice of finance, servicing and insurance options. It all helps to keep the big issues covered

A three-year warranty that lasts up to 100,000 miles

All Caddys get a three-year, 100,000-mile warranty – and so do any factory-fit options that you buy. The vehicle warranty is made up of:

- A two-year manufacturer's warranty with unlimited mileage
- A third-year Van Centre warranty, up to a maximum of 100,000 miles

Even if you exceed 100,000 miles during your first two years, the manufacturer's two-year warranty will still be valid.

Want cover for longer?

You can extend your vehicle warranty online or by phone. You can choose Comprehensive or Major Component cover and either one-off or monthly payments. Call **0845 641 9712** or visit www.volkswagencvwarranty.co.uk for details.

Service options designed to fit your business perfectly

It's only natural that you want to keep your vehicle running at its best. Getting it serviced at a Volkswagen Van Centre is a great way to ensure that's exactly what happens. However, when it comes to servicing, we know every business has different needs. That's why we've developed three different service options for you to choose from:

- Pay Monthly
- Pay Upfront
- Pay On-Demand

Whichever suits your business best, you can rest assured that when you book in your vehicle, it'll be looked at by Volkswagen-trained technicians and they'll use only Volkswagen quality parts. What's more, there's a two-year warranty on the parts and one on labour.

For more details

visit www.volkswagen-vans.co.uk, or call **0800 717131** to learn more.

Volkswagen Insurance keeps you covered*

Volkswagen Commercial Vehicle Insurance can provide you with cost-effective, comprehensive motor insurance. Look at some of the benefits:

- Seven-day free cover to allow you to drive your vehicle away knowing it's insured
- All repairs performed by approved repairers
- Volkswagen quality parts on all repairs
- Courtesy vehicle provided during repair following an accident
- Cover for breakage and damage to glass
- Tools-in-transit cover (up to £1,000)
- In-vehicle personal belongings cover (up to £500)
- Vehicle recovery
- 60-day European Union cover
- Legal expenses cover up to £100,000

We also offer a range of gap insurance products. These help you replace your vehicle or protect you from any financial shortfall if it is written off.

For more details

visit www.insurewithvwcv.co.uk, call **0800 316 7896** or pop into your Van Centre and ask for a Flexible Finance brochure.

* Terms and conditions apply

"If your van's not working, you're not working. That's why we're here to help"

Flexible Finance that makes things affordable

We can also make buying a new van more affordable in the first place. Speak to us about our selection of finance options, which include:

- Contract hire
- Finance lease
- Lease purchase
- Hire purchase

For more details

visit www.volkswagen-vans.co.uk/finance or pick up our Flexible Finance brochure at your nearest Van Centre.

Three years' Roadside Assistance

Sometimes, the unexpected happens. If it does, your new Caddy comes with an unlimited-mileage recovery and assistance package. It lasts the same three years as your warranty and operates 24 hours a day, 365 days a year.

Cover is available across the UK and most of Europe. Our fully trained technicians can diagnose most problems at the roadside and they use Volkswagen quality parts.

Learn more

Visit your Van Centre to get a Volkswagen Roadside Assistance handbook, visit www.volkswagen-vans.co.uk/aftersales/roadside-assistance or call **0800 77 71 72**

Van Centres – always there for you

Our dedicated Van Centre network is the backbone of everything we do, with more than 100 Van Centres and Authorised Repairers throughout the UK

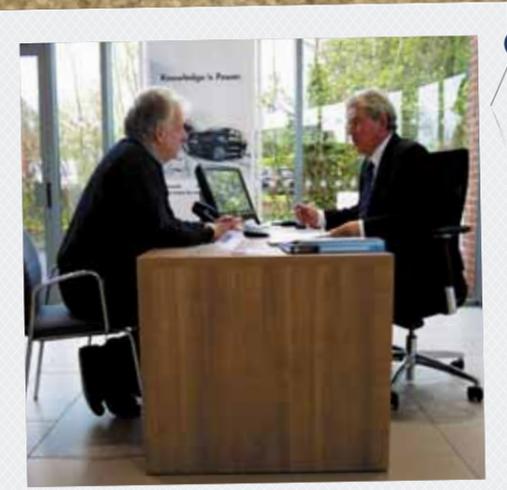

Our Van Centre network offers a wide range of services, from MOTs to accessories, servicing to fully fitted parts. Not only that, but we use Volkswagen quality parts and you get dedicated staff who understand your vans intimately. So pop in for a coffee and a chat, and find out what your Van Centre can do for you.

Turn the page to learn more about our Van Centre network

7 ways your Van Centre can help you right now

Make full use of your nearest Van Centre – it's full of Volkswagen experts who know your vehicle better than anyone and who can help you to get the best out of it

Picking a van that's perfect for your needs
We know that choosing your next van or passenger carrier is a big decision. You want a vehicle that works as hard as you do, both now and for the long-term – one that's versatile, cost-effective and reliable. We're here to help make your choice easier.
Our Van Centre experts can offer advice on every model in the range and help you pick the right vehicle and factory-fit options for your business. They can also advise you on the best finance packages to ensure that your payments make financial sense.

Always on hand to help

Quality servicing you'd expect at a price you wouldn't
Unpredictability and moving goalposts are part of life for a modern business, making it difficult to predict how many miles your vehicle will do in a year, or how long you'll need to keep it. Our National Service Pricing is designed for customers who need the flexibility of being able to book their vehicle in for a service whenever it needs it. When you do, our technicians will do everything necessary to ensure that your vehicle is back on the road, working hard for your business, as soon as possible.

Express Visual Checks - peace of mind for free
Your Van Centre or Authorised Repairer can give your vehicle a free, 29-point Express Visual Check for complete peace of mind. You'll be given a comprehensive report, with the results clearly explained, and your technician will talk you through what work may need to be done in the future, so you can plan ahead and budget for it. If something needs urgent attention, you can get a precise quote before any work is done – and all the Volkswagen parts are covered by a two-year warranty.

Accessories designed to help you get more from your van
Perhaps you've bought a van and your needs have changed – maybe you need a towbar or a roof rack, or perhaps you want to give your van some extra style. That's where Add Ons comes in. Add Ons is an extensive range of Volkswagen-approved accessories, available to buy and be fitted at your local Van Centre. We've got everything from towbars to tailgate spoilers, load nets to leather seats and sat-nav systems to stunning alloy wheels.

Fast, hassle-free van rental for one-off jobs

Need another van for just a short while? We can hire you any vehicle from our fleet – Caddy, Transporter or Crafter – or passenger-carrier versions of the Transporter and Crafter if you need to move people.

For more information, call the Van Rental team on 01908 467450

Fully fitted parts for a fixed price - and not a penny more
The pricing of all our Volkswagen quality parts is straightforward and clear, so you know exactly how much you're paying. Even better, when they're fitted by trained technicians at a Van Centre or Authorised Repairer they come with two years' warranty and 12 months warranty on labour. If your van is over five years old, ask us about our Economy Parts range. This is a great-value way to help keep your vehicle 100% Volkswagen – it uses high-quality parts that come with a two-year warranty.

Taking the worry out of tyres
Why run around looking for a fitter who has your tyres in stock? Let us fit new tyres when your van is in for its service and it'll keep your van off the road for less time. We have a huge range of tyres for all Volkswagen vans, from economy to premium brands, including winter tyres.

What else can we do?
Loads! Just pop into any Van Centre and ask us. For example, we may be able to point you to a local signwriter, recharge your air-conditioning, or answer any queries about your vehicle. Whatever it may be, we're here for you.

To find your nearest Van Centre, visit www.volkswagen-vans.co.uk or call 0800 717131

Deposits that may help you own a van sooner than you think

Don't worry if you can't afford to put down a significant deposit. All our plans are flexible to fit with what you can afford and when you can afford it.

Finance that makes buying a Volkswagen even more affordable

Our extensive range of finance packages can make driving a Volkswagen a reality. Speak to us today – you may be surprised at how much you can afford.

To find the nearest Van Centre to you, call us on 0800 717131 or visit www.volkswagen-vans.co.uk

Options

Get the best from your van with our quality options

ways to get even more from your Caddy

Want your van to stand out from the crowd or add items to make it do its job better? We've got all the options you need

Paints and alloys

Alloy wheels and metallic or pearlescent paints are great for adding an even more stylish look to your van, and can help it to retain more of its value when you come to sell it in a few years. Our 15" Kemora wheels come in a set of four with a tyre repair kit and 195/65 R15 tyres, and are available for most Caddy models. There are two other wheel designs to choose, too.

p34

Cargo bay

We have lots of options for upgrading your cargo bay, including a choice of bulkhead designs that separate the load space from the cab, rubber or carpet floor coverings for the cargo area, and partition nets for the luggage area to allow you to divide it to suit your specific requirements.

p40

Body and chassis

If you want to make it easier to get things in and out of your Caddy, there's a choice of side- and rear-door packs. You can add a second sliding side door, a rear tailgate or rear wing doors with opaque glass. You could add a towbar or roof rails for greater versatility, too.

p38

Audio, phone and sat-nav p36

We've got stereo systems to keep you entertained, Bluetooth phone connectivity to keep you in touch and sat-nav to keep you on the right road. Some stereos combine audio and sat-nav, such as our four-speaker RNS510, with voice or touch-screen control. It has an FM/AM radio with RDS (radio data system) for traffic updates, a six-CD changer, 30GB hard drive, SD card slot and an aux-in socket. Maps for western Europe are included.

Comfort and convenience p42

You're often in your Caddy's cab for large chunks of the day, so it has to suit your needs. Customise it with a cab comfort pack, leather multi-function steering wheel, or parallel park assist with distance control, which helps you to park accurately. You can also add cruise control, which can help to save fuel by keeping your speed constant.

Safety and security p46

The Caddy has lots of safety features as standard, but you can add more, including extra airbags, parking sensors and fog lights (with or without cornering function). We also offer hill hold assist to make hill-starts simple and alarm packs to keep your van secure.

Heating and ventilation p44

In summer, you want to keep you and your workmates cool, so choose one of our manual or automatic air-conditioning systems. We can also provide you with an auxiliary heater for the rear passenger area (Caddy Maxi kombi models) – ideal for early-morning winter starts.

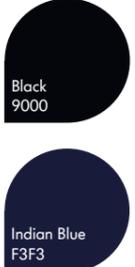

Electrical

Whether you need the convenience of the Caddy's electric pack (electric windows and door mirrors) or information equipment such as a trip computer, there's the right kit for you. You'll also find upgraded alternators and batteries to cope with any heavy-duty electrical options or accessories you might need.

p48

Options: Paint

You want your van – and your business – to make an impression.
The most striking way to do that is to opt for a distinctive paint finish

		Standard		Trendline		Highline

Keep your alloys in perfect condition

Brake dust is full of abrasive and corrosive metal and carbon particles, so clean your alloys every couple of weeks with a specialist brush and cleaning fluid, then coat them with a wax protector. You can buy these at your local Van Centre.

If you want even more choice for alloy wheels check out our Add Ons accessories range. Ask your local Van Centre for a brochure, call 0800 717131 or download a copy at www.volkswagen-vans.co.uk

	Caddy Maxi kombi	£255.00	£306.00	–	–	–	–

Choose your rear doors

The Caddy panel van has glazed asymmetric rear wing doors as standard, but you can pick various glazing options, including tinted glass or heated windows with wash-wipe. You could also choose a tailgate with a heated window, too.

Fit an extra side door

The Caddy panel van comes with a sliding door on the nearside as standard. Fitting a side door on the offside lets you access your load from the pavement, no matter what side of the road you have to park on.

	Caddy Maxi kombi	-	-	-	-	-	-

Choose a bulkhead

Bulkheads separate the load space from the cab, giving you greater protection from shifting loads, less noise from the cargo bay and a warmer cab in winter.

	Caddy Maxi kombi	£105.00	£126.00	-	-	-	-

Get the right cover

A wooden load-floor covering helps protect the interior of your van from damage. A rubber load-floor covering helps items to bed in, preventing them from shifting.

Add Ons
Accessories to help keep your vehicle 100% Volkswagen

Go for cruise control

Cruise control can help reduce the fatigue and stress of sticking to speed limits on long journeys. It also helps reduce the amount of fuel you use by cutting out the acceleration and braking used to maintain a steady road speed.

Useful security tips

1. Get an alarm

Alarm noise may be enough to scare a thief and prevent a costly break-in.

2. Lock your doors

Even if you're only away from your van for a minute, locked doors deter thieves looking for an easy target.

3. Keep it tidy

Seemingly trivial items can still be bait to thieves. Stow gadgets out of sight or take them with you. Thieves know to look in the glove box, too.

4. Load out of sight

Try and load your van in a secure location. Thieves can linger in public areas for an easy swipe-and-run.

5. Park for visibility

Use well-lit areas. Avoid parking near vehicles or foliage that a thief could use for cover. Parking right up against walls can stop a thief getting in through your van's doors, too.

Want more? Pick an Add On...

The Caddy comes with a wide range of factory-fit options, but you may want something extra. That's where Add Ons come in

Add Ons is the new name for our extensive range of Volkswagen-approved accessories, available to buy and be fitted at your Van Centre. Whether you want to add extra style to your van, get more out of your cargo bay, convert a work van into a weekend leisure vehicle or add extra audio, phone and sat-nav to your cab, we've got lots of Add Ons for you.

Help keep it 100% Volkswagen

There are big advantages to purchasing your accessories from Volkswagen. Add Ons have all been designed with Volkswagen in mind, so they're a perfect match for fit and style, and they've been designed and developed to be just as rugged, reliable and long-lasting as your vehicle.

Keep your Add Ons covered

Most Add Ons include a two-year warranty. However, if you order and fit them at the time of purchasing a new van, we may be able to extend that to three years to match your vehicle's warranty. Pop into your Van Centre and ask our staff about how much Add Ons can add to your life.

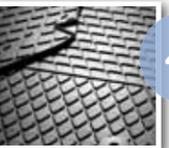

To get a brochure, pop into a Van Centre. To find your nearest one, call 0800 717131 or visit www.volkswagen-vans.co.uk

Top five Caddy Add Ons

- 

16" Sima alloy wheel
Add extra style with these 6J x 16 alloys, which are exclusive to the Add Ons range.
- 

Bluetooth® Music Touch Phone kit
Control your phone by touch-screen or by voice, and have your texts and emails read to you. It plays music from your phone, too.
- 

Roof-bar set
Our roof bars can hold up to 100kg. You can order a range of roof-bar accessories to suit your load, too.
- 

Front and rear rubber mats
Protect your van's floor with these durable rubber mats. Their easy-to-use fixings ensure that they always remain securely fastened.
- 

Polished stainless steel side rails
These rails not only look good, they also protect your van's sills from damage. They're available for the Caddy and the Caddy Maxi.

Engines: Caddy (all models)

- Available
- Not available

Output (PS)
Torque (Nm)

Standard features: Caddy panel van

Standard

EXTERIOR

- 15" steel wheels with 195/65 R15 tyres and black centre caps
- 16" steel wheels with 205/55 R16 tyres and black centre caps (140PS only)
- 60-litre fuel tank
- Glazed asymmetric rear wing doors
- Grey bumpers
- Heated rear window and wash/wipe (not C20+)
- Roof-rack preparation
- Spare wheel – full-size steel

INTERIOR

- 12V socket in dashboard
- Two door-activated interior lights
- Four drinks holders and storage compartment in centre console
- Digital clock
- Dimmable dashboard illumination
- Driver's seat with height, reach and rake adjustment and passenger seat with reach and rake adjustment
- Full height bulkhead – solid lower and plastic mesh upper (not C20+)
- Hardboard roof trim and painted half-height side panels
- Interior light in headliner
- Load-lashing rings (six)
- Manually controlled heating system with dust and pollen filter and air recirculation
- Open glove compartment
- 'Place' cloth upholstery
- RCD 210 radio/single MP3-compatible CD player with two speakers and aux-in socket
- Rear-view mirror with anti-dazzle function (not C20+)
- Rubber floor covering
- Servotronic speed-related power-assisted steering
- Sliding side door on left

SAFETY AND SECURITY

- Automatic hazard lights activation under emergency braking
- Driver's airbag
- Electronic Stabilisation Programme (ESP) – incorporating Anti-lock Brake System (ABS), Electronic Differential Lock (EDL), Traction Control System (TCS) and Engine Drag TorqueControl (MSR)
- Halogen main headlights with range control and daytime running lights
- Reach- and rake-adjustable steering column
- Jack and tool kit
- Remote central locking with deadlocks, internal locking switch and two remote keys
- Thatcham Category 2 immobiliser
- Windscreen wiper with variable intermittent delay and wash/wipe system

Model-specific features

C20+

- Full height bulkhead – solid
- Heavy-duty suspension
- Opaque glass in asymmetric rear wing doors

BLUEMOTION TECHNOLOGY

- Cruise control
- Hill Hold Assist
- Start/Stop system
- Brake energy recuperation system

Trendline and Highline

TRENDLINE

In addition to Standard

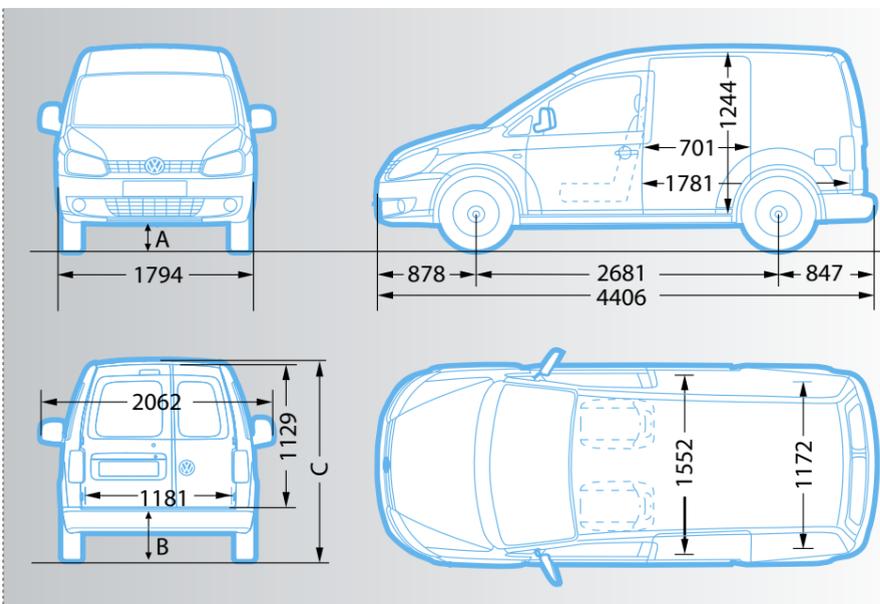

- RCD310 visual single CD/radio system. Includes a larger display and ParkPilot visual display when combined with parking sensors.
- Bluetooth mobile phone connection. Includes trip computer with multi-function display
- Parking sensors – rear
- Body-coloured bumpers, door mirrors and handles
- Electric front windows
- Door mirrors – electrically adjustable and heated
- Includes storage compartments under front seats, sun visors with vanity mirrors and dashboard centre storage compartment cover
- Height adjustment for passenger seat (standard for driver seat)
- Wheel trims
- Cruise control

HIGHLINE

In addition to Trendline

- 15" x 6J Kemora alloy wheels with 195/65 R15 tyres, including steel spare wheel and locking wheel bolts (all models except 140PS derivatives)
- 16" x 6J Siracusa alloy wheels with 205/55 R16 tyres, including steel spare wheel and locking wheel bolts (140PS derivatives)
- Air-conditioning system
- Leather steering wheel and gear knob
- Front fog lights
- Thatcham Category 1 alarm and immobiliser with perimeter, cab and tow-away protection

The small print and the footnotes

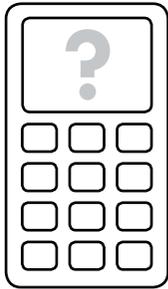

Print processes do not allow exact reproduction of the paint and upholstery colours. Some of the vehicles shown are fitted with optional equipment at extra charge.

All data given and specifications are in accordance with information available at the time of going to print and are subject to change without notice. Vehicles not in current UK stock and customer order vehicles may take a number of weeks for delivery. Certain combinations of vehicle specifications and factory-fitted extras are not compatible and therefore all orders received are subject to confirmation. Models, factory-fitted options and paint and upholstery options subject to availability. Please check details and availability with an appropriate authorised Volkswagen Van Centre at the time of ordering.
