Transporter 6.1 Shuttle S

Transporter 6.1 Shuttle SE

The Transporter 6.1 Shuttle Iconic. Intelligent. Innovative.

The Transporter Shuttle, based on the Volkswagen Transporter van, has been meeting the highest standards of passenger transport for over 30 years. Now relaunched as the Transporter 6.1, the latest generation Transporter Shuttle features a redesigned exterior with dynamic twin halogen headlights, stylish new dashboard and countless equipment options, setting new standards in technology and safety, with numerous seating configurations making the most of its exceptional spaciousness.

Image shown is for illustrative purposes only. Vehicles shown are not UK specification.

Impressive range of options. Transporter 6.1 Shuttle meets almost any requirement thanks to a wide range of options, including two trim levels, two wheelbases and numerous seating configurations, storage areas and electronic features.

Distinctive design. The redesign features a new colour palette, twin halogen headlights with the LED tail light clusters providing a striking rear light signature.

Proven quality. As you'd expect, the Transporter 6.1 Shuttle is durable, versatile and built to last with a highly stable body, the finest quality materials and exceptional workmanship.

State-of-the-art driver assistance systems. Crosswind Assist¹, Adaptive Cruise Control (ACC) including Front Assist with City Emergency Braking System¹, Driver Alert and Brake Assist¹ are fitted as standard, with the optional Active Lane Assist^{1,2,3} further enhancing safety and responsiveness.

¹ Within the limits of the system. ² Optional at extra cost. Please contact your authorised Volkswagen Van Centre for details of the standard equipment and optional extras available. ³ The driver must be prepared to override the assistance system at any time and is responsible to drive the vehicle with caution.

Comfort
is everything.

Impressive standard equipment. All versions include a Composition Colour DAB+ radio system (not shown), interior lighting with LED technology and Climatic semi-automatic air conditioning.

Relaxed chauffeuring. The ergonomic driver workplace, electromechanical power steering, newly designed dashboard, driver's seat with lumbar support and excellent all-round visibility ensure a relaxed, stress-free driving experience.

Perfectly networked. The Transporter 6.1 Shuttle is available to order with the optional digital cockpit¹, which features a high-resolution 10.25" display. The vehicle also features the latest touch-screen radio and navigation systems with integrated eSIM and App-Connect, We Connect² mobile online services and Bluetooth®, ensuring you stay informed while you travel.

Interior well-being. Comfort is key with folding armrests, excellent noise insulation, LED reading lights, plenty of head and legroom, intelligently arranged controls, solid feel switches and attractive trims.

¹ Optional at an extra cost on the Transporter 6.1 Shuttle SE. Not available for the Transporter 6.1 Shuttle S.
² To use We Connect services, you need a Volkswagen ID user account and must log in to We Connect with your user name and password. A separate We Connect contract or We Connect Plus contract will also need to be made online with Volkswagen AG. For We Connect Plus you have 90 days after the handover of the vehicle to register the vehicle on portal.volkswagen-we.com and can use services free during this time.

Illustration shown includes options at extra cost. Please contact your authorised Volkswagen Van Centre for details of the standard equipment and optional extras available.

The perfect choice for flexibility.

With 'easy-entry' seating, the Transporter 6.1 Shuttle allows you to enter with ease and discover a great place to kick back and relax. While it offers a comfortable, safe and controlled environment, it's the Shuttle's flexibility that sets it apart. If required, the standard seating for eight (including the driver) can be configured in multiple layouts, or completely removed to create a generous load area. All seats feature three-point inertia-reel seatbelts and adjustable head restraints, while ISOFIX child seat mountings can be found on the second row and optionally on the third row three-seat bench. Even with a full compliment of passengers, the Transporter 6.1 Shuttle's rear luggage space, together with numerous handy storage compartments, means there is plenty of space for luggage or kit.

Seat packages. From a 5-seater to a 9-seater, the Transporter 6.1 Shuttle offers a flexible solution for every requirement.

'Easy-entry'. Sliding doors and single seats with entry assistance function, in the passenger compartment, ensure third row seats are easily reached.

Long wheelbase. Provides 400mm³ more luggage space volume.

Park Assist.^{1,2} **NEW**

Park Assist aids positioning into parking spaces. When reverse is engaged, the vehicle assumes control of the steering. All that's required of the driver is to operate the pedals, whilst keeping a good lookout.

Trailer Assist.^{1,2} **NEW**

Trailer Assist automatically manoeuvres the vehicle, and trailer, during parallel and reverse parking in combination with tow bar preparation or removable and lockable tow bar.

Side protection.^{1,2,3} **NEW**

As part of Park Assist, Side protection monitors the vehicle's sides and alerts you with visual and audible warnings if you're getting too close to other vehicles, pillars, walls or pedestrians.

Crosswind Assist.² **NEW**

As part of the standard Electronic Stabilisation Programme (ESP), Crosswind Assist applies adaptive braking intervention when the vehicle encounters a strong crosswind.

Traffic Sign Recognition.^{1,2} **NEW**

Detects road signs and informs the driver. Optionally available in combination with the Discover Media or Discover Pro navigation systems.

Active Lane Assist.^{1,2,4} **NEW**

Active Lane Assist countersteers the vehicle if the driver unintentionally drifts from a lane. The system also emits audible and visual warnings via the multi-function display to alert the driver of danger.

Rear Traffic Alert.^{1,2} **NEW**

As part of Active Lane Assist, Rear Traffic Alert helps by emitting an audible warning when reversing out of a parking space if another vehicle is approaching. If the driver fails to respond, the system intervenes and applies braking to help avoid a collision.

Tyre pressure monitoring system.^{1,2}

Displays the current pressure for every tyre and warns of deviations from the set pressure.

Adaptive Cruise Control (ACC).²

Adaptive Cruise Control uses a front radar to measure the distance (up to 120 metres) and speed relative to vehicles driving ahead. It automatically regulates the pre-set distance. ACC also includes the Front Assist with City Emergency Braking System. This detects critical distances, warns of hazardous situations and when necessary, a speed of up to 18mph triggers emergency braking.

Intelligent driver assistants give you peace of mind.

Driving the Transporter 6.1 Shuttle offers high levels of safety and peace of mind, thanks to a host of standard and optional driver assistance systems. Whether you require assistance when parking, driving, changing lanes or towing a trailer, the latest assistants monitor the situation, taking preventative action in critical situations.

¹ Optional at extra cost. Please contact your authorised Volkswagen Van Centre for details of the standard equipment and optional extras available. ² Within the limits of the system. ³ No direct detection of lateral obstacles by sensors. Obstacles are 'estimated' by the system when they are detected by the front/rear sensors as the vehicle passes. ⁴ The driver must be prepared to override the assistance system at any time and is responsible to drive the vehicle with caution. ⁵ Not available for all engines.

Optimum performance, on every journey.

Dual clutch gearbox DSG.^{1,5}

The optional 7-speed dual clutch gearbox DSG delivers fully automatic, almost imperceptible gear changing with no interruption in power flow, significantly enhancing driving comfort and efficiency. Choose between normal and sport mode.

Equipment highlights

Standard equipment (highlights)

Transporter 6.1 Shuttle S

- 7J x 17" steel wheels
- Adaptive Cruise Control (ACC) with speed limiter **NEW**
- Black exterior mirror housings and door handles
- Bluetooth® phone connectivity
- Central locking system with radio remote control, system controls inside and SAFELOCK
- Climatic semi-automatic air conditioning system **NEW**
- Composition Colour DAB+ radio system with 6.5 inch touch-screen, SD card slot and four speakers **NEW**
- Volkswagen App-Connect **NEW**
- Crosswind Assist **NEW**
- Driver alert system
- eCall emergency system **NEW**
- Electromechanical speed-sensitive power steering, height and longitudinally adjustable steering column **NEW**
- Electrically heated and adjustable door mirrors
- Electronic Stability Control, ABS, ASR (with deactivation button), Electronic Differential Lock (EDL), Hill Start Assist, Brake Assist system
- Front Assist with City Emergency Braking
- Glovebox lockable and illuminated **NEW**
- Grey bumpers
- H7 twin halogen headlights with separate daytime running lights **NEW**
- Interior lighting with LED technology in passenger compartment **NEW**
- ISOFIX and top tether child seat anchorage in 2nd row
- Leather trimmed multi-function steering wheel **NEW**
- LED tail lights **NEW**
- Low rolling resistance tyres
- Lumbar supports for left and right single seat in the 1st row of seats (both manually adjustable)
- Multi-function display plus with black and white display
- 'Quadratic' cloth upholstery in Titanium Black **NEW**
- Radiator grille with two chrome strips **NEW**
- Rubber floor covering in cab and passenger compartment with loading edge protection in rear
- Sliding doors, left and right in passenger compartment
- 3 single seats with 'easy-entry' on outer seats, all backrests separately foldable, in 2nd row of seats
- 12V sockets in dash

Standard equipment (highlights)

Transporter 6.1 Shuttle SE

- 7J x 17" alloy wheels 'Devonport' in Silver **NEW**
- Adaptive Cruise Control (ACC) with speed limiter **NEW**
